

# MASKED BANDITS ATTACK XENIAN

## COAST GUARD ARREST CHALLENGED

### BRITISH SCHOONER CAPTAIN SAYS SHIP WAS OUTSIDE LIMIT

Crew Being Held As  
Charges Prepared  
By Attorney

NEW ORLEANS, La., March 25.—Capt. John Thomas Randall, D. S. C., skipper of the rum running British schooner I'm Alone today challenged the right of the United States coast guard in sinking his vessel with its cargo of 2,400 cases of liquor and capturing the skipper and the seven surviving members of his crew.

At the official although secret investigation into the episode, Capt. Randall charged that the coast guard cutters had no right to molest him because he was outside the twelve mile limit.

"I was at least fourteen and nearer fifteen miles off shore when this thing happened," Randall said. "I admit that my schooner carried a cargo of liquor but we were not in American waters and should not have been touched."

The inquiry also developed that United States district Attorney Edmund Talbot was preparing criminal proceedings against the captain and his crew and would charge them with violating the prohibition customs and tariff laws.

The hearing is being held before Assistant Attorney General Henderson, of Washington, the British vice-consul here, United States Attorney Edmund E. Talbot, and coast guard and revenue officials.

Seven of the crew of the schooner were landed here early yesterday in irons and under heavy guard. The body of the eighth, who lost his life when the ship sank and who was said to be Leon Maingau, native of St. Pierre, Miquelon, a French possession, and a naturalized British subject, was also brought ashore.

The investigators hope to determine the exact cargo of the I'm Alone. Officials say she carried 2,400 cases of liquor. Capt. John T. Randall, master of the I'm Alone, was vehement in his criticism of the manner in which his vessel was taken, and denied emphatically his ship carried narcotics or aliens. He admitted he was engaged in the liquor smuggling trade.

He said he did not stop when challenged by the cutters Walcott and Dexter because he was "within his rights and entitled to the freedom of the seas." He is formally charged with interference of a customs officer in his boarding duties.

### SENATOR FESS SAYS UNITED STATES MAY JOIN WORLD COURT

Touches On Prohibition  
In Talk Before  
Students

ANN ARBOR, Mich., March 25.—Foreign and domestic problems with which Congress is battling were the basis of an address made by Senator Simeon D. Fess, of Ohio, before 3,000 University of Michigan students at the first of a series of spring convocations in Hill Auditorium yesterday.

The speaker touched only briefly on the prohibition question, yet said that the Eighteenth Amendment never would come out of the Constitution. He voiced opinion that the United States would become a member of the World Court.

"The Jones law is a modification of the Volstead act in the hope of making it more effective," said Senator Fess.

"The Volstead act may again be modified and in different ways but only with the thought of strengthening it. The Eighteenth Amendment will always remain a part of the Constitution."

Arguing for the World Court, Senator Fess said: "Causes of war will constantly arise, for disputes are inevitable between nations. Conciliation, negotiations, arbitration have all been tried and have failed."

### DELAY OUSTER PROCEEDINGS AGAINST MAYOR GROH OF DOVER

OLUMBUS, O., March 25.—State Probation Commissioner Rupert R. Beetham will delay ouster proceedings against Mayor P. H. Groh of Dover until tomorrow, it was announced today.

Groh is accused of accepting a \$50 bribe from an "undercover" state prohibition agent who posed as a rum-runner and went to Groh "to buy" protection.

The mayor denied the charge and when he was arraigned pleaded not guilty and was released under \$10,000 bond.

Beetham was expected to begin ouster proceedings today but the prohibition commissioner was away from the city and will not return until tomorrow.

Meantime, the charges against the mayor were laid before Governor Myers Y. Cooper for final drafting.

Beetham and the governor discussed the case Saturday and it was decided at that time that the mayor would be formally charged.

### FARM RELIEF FIGHT APPEARS NEAR END AS HEARING STARTS

"Give Hoover Chance"  
Theory May Lessen  
Opposition

WASHINGTON, March 25.—End of the seven year struggle for general farm relief legislation appeared to be at hand today as the senate agriculture committee opened hearings on the bill which is to be passed early in the April 15 special session of congress.

Wide differences of opinion which twice prevented the enactment of the equalization fee system and thwarted any other general relief legislation appeared to be mitigated in the face of the general plea "give President Hoover a chance to work it out his way."

Joining or abiding silently in this plea were not only nearly all of the farm bloc members of congress but also the leaders of farm organizations like the American Farm Bureau Federation and the committee of twenty-two who have been ardent supporters of the old equalization fee.

This co-operative spirit at the start of efforts to write the new legislation led congressional authorities to predict a bill satisfactory to Mr. Hoover would be passed and signed before June 1.

The general outlines of the legislation have already been generally agreed upon. It will set up a federal farm board to administer a government revolving fund of perhaps \$300,000,000.

This money will be loaned to co-operative organizations representing various groups of farmers for each major commodity such as the wheat group, the corn group, the cotton group and others. With the loans the co-operative groups are expected to build warehouses to store their surplus production and thus to an extent control the market.

With other loans they will finance a system of closer co-operative marketing by building elevators and other facilities.

The strong point of the measure is that all factions agree it will be helpful. It's weak point, conceded by its advocates, is that it makes no provision for handling the exportable surplus of products which in the last twenty-one years has amounted to about one-eighth of total production.

Friends of the measure are confident that while it will not be a cure-all its beneficial effects may obviate the necessity of providing for some handling of the exportable surplus.

Nearly forty witnesses are to be heard by the senate committee, including nearly all the leaders of the larger farm organizations.

The hearings are expected to last two weeks and the bill will be ready for consideration in the senate the first day.

### GRAF ZEPPELIN ON NON-STOP FLIGHT

BERLIN, March 25.—The dirigible Graf Zeppelin, conqueror of the Atlantic last year, set out early today on a nonstop flight from Friedrichshafen to Palestine and return.

It had aboard a crew of forty men and a passenger list of twenty five.

The flight was scheduled to be the longest yet made by the dirigible.

Dr. Hugo Eckener, commanding the flight, as he did the Friedrichshafen-New York trip last year, said the probable route would include Basle, Switzerland; Besancon, France; Corsica; Genoa, Milan, Rome and Palermo.

Sixteen thousand letters and cards to Egypt, Greece and Czechoslovakia were aboard.

### IMPEACH JURIST

Oklahoma's impeachment tree has sprouted another branch with the ousting of Charles W. Mason, above, chief justice of the state supreme court, by vote of the senate 63 to 24 on one of eleven charges brought by the house.

Justice Mason presided over the impeachment trial of Governor Henry Johnston.

### PLANE SOUGHT ALONG COAST; FOUR MISSING

WASHINGTON, March 25.—The roar of sea and air motors sounded above and along the Maryland, Delaware and New Jersey coasts today as a small army of planes and boats sought carefully for the Sikorsky amphibian airplane with four passengers missing since last Friday.

The lost Sikorsky, piloted by Dr. Harry Smith, of Miami, and carrying T. Raymond Fincauca, prominent yachtsman and real estate operator of Rochester, N. Y., and Frank Abels, Woodhaven, N. Y., and J. A. Boyd, Miami, mechanics, left Norfolk, Va., Friday morning for New York after a trip from Miami.

The plane has not been sighted since it roared off into the fog over Norfolk. Reports to the navy department from their Bethany Beach, Del., radio station that a plane was seen at different points along the Maryland-Delaware coast Friday morning were of a plane following Smith over the same course an hour behind him. He did not see Smith's ship.

Airmen are convinced one of three things has happened to the ship sought—the Amphibian landed on the surface and has been blown out to sea; it made a forced landing on the water sprung a leak and sank; or crashed ashore.

With these ominous forecasts in mind, navy and army planes numbering more than a dozen, twenty-five coast guard ships and the army blimp TC-5 this morning are combing both sea and land.

Yesterday's search convinced the army air corps the ship was not to be found in the coves, inlets and islands of Chesapeake Bay. Today their search is being concentrated inland and as far out as fifty miles at sea. The coast guard boats and three navy flying boats, the latter in parallel southward courses ten, taking off from New York and flying, and thirty miles apart, are taking care of the sea search.

Army planes and the blimp will scour land.

The Curtiss Flying Service, owners of the plane, have posted a reward of \$500 for information leading to recovery of the plane and its passengers.

### DEMAND RESIGNATION

IRONTON, O., March 25.—Resignation of Mr. Brook Capper and W. E. Massie as members of the board of trustees of the county children's home, has been demanded by the county commissioners.

Two other members of the board resigned some time ago. "Lack of efficient and intelligent administration" was assigned as the cause.

## SOUTHERN FLOOD RECEDING

### LEAVE MANY DEATHS AND MUCH PROPERTY LOSS IN TENNESSEE

Recover Bodies Of Seven  
Boy Scouts; Hero  
Revealed

KNOXVILLE, Tenn., March 25.—Chaotic flood conditions in the south were improved today with the advent of warm, sunshiny weather, but sorrow lingered over sections of Tennessee where human lives were claimed Friday night by raging torrents resulting from cloudbursts.

Stopping of the almost unprecedented rains of the past few weeks was welcomed by the homeless left by the receding waters, confined in most part to the states of Alabama, Tennessee, Florida and some few in Georgia.

The death toll at Harriman, on the Emory River in eastern Tennessee, is placed at twenty-three persons while the property loss there was estimated at more than \$2,000,000.

Only one of the town's major plants escaped serious damage by the flood waters which raged through the streets to a depth of thirty feet early Saturday morning.

The Harriman hosiery mill was said to have escaped heavy loss, although five other plants were said to be practically destroyed.

The bodies of seven members of a Boy Scout troop swept away by the waters of White's Creek near Rockwood, Tenn., had been recovered today, while search continued for that of another. Four of the victims were found yesterday by a searching party from Rockwood and a group of Boy Scouts from Chattanooga.

Alarm was felt in the city of Chattanooga today as the crest of the Tennessee River swept nearer, with a flood stage of thirty-eight feet predicted. Some families have fled from their homes in the low portions of the city, while transportation arteries were at a standstill.

The heroic act of one scout who gave his life in an attempt to succor his scoutmaster after the cabin of the troop was swept into swollen White's Creek near Rockwood became known today.

James T. Wright, of Rockwood, leader of the boys in the camp situated on the banks of the normally quiet stream, was thrown from the roof where the troop had taken refuge and was swept away by C. Hill, Jr., leaped into the flood after him and both were drowned.

Scout William Evans rescued two other boys from his perch on a tree trunk as they floated by on the current beneath.

The bodies recovered yesterday were those of Fred Burnett, Roy Green, Lawrence Montgomery and Woodrow Kerr. The bodies of Ed Burnett, twin brother of Fred Burnett, and Wright and Hill had been found Saturday.

Jack Shambarth is believed to have drowned, although his body had not been recovered.

### PERSHING OFFERED OIL CZAR'S OFFICE

PARIS, March 25.—General John J. Pershing today told the United Press he was approached several months ago regarding a proposition that he become the high commissioner of the oil industry, a position similar to that occupied by former Federal Judge K. M. Landis in baseball and Will Hays in the cinema industry.

### WATCHMAN IS SLAIN BY THUGS

AKRON, March 25.—The body of Eli Grubb, 76-year-old watchman for the Horning Lumber Company, was found in a yard in the rear of the lumber yard early today.

Detectives believe the aged man was beset by thugs who planned to burglarize the lumber company office, and murdered him when he offered resistance.

Grubb was unarmed, although he usually carries a gun. His chain of keys was gone.

The body was found by George Weath, another employee of the company.

Grubb's eyes were blackened and attendants at the Billows morgue believe his skull was fractured, although no autopsy has been made.

### APPROPRIATION S BILL WILL BE INTRODUCED IN SENATE

COLUMBUS, O., March 25.—The general appropriations bill, carrying approximately \$65,000,000, will be introduced in the state legislature tonight.

Introduction of the measure will mark "the beginning of the end" of the eighty-eighth general assembly.

### Foch Rests In Cathedral As Funeral Plans Made

PARIS, March 25.—Marshal Ferdinand Foch rested within a tiny chapel of Notre Dame Cathedral today as final preparations were made for one of the most impressive funerals ever held in France.

The uncertain flames of candles lighted the dim chapel to which the body of the war leader was removed from beneath the Arc de Triomphe, where tens of thousands paid him homage all day Sunday.

An unusually heavy police guard was stationed outside the great entrance to the cathedral to prevent a repetition of yesterday's crushing crowds. One man and one woman were killed and at least 100 persons were injured when the great crowd massed around the tomb of the unknown soldier, passed beyond control of police.

The removal of Foch's body from the Arc de Triomphe—under which he rode ten years ago with Marshal Joffre at the head of a victorious army—was impressive but lacking in pomp.

Workmen were busy today hanging heavy black crepe and tricolor draperies throughout the cathedral in preparation for the services tomorrow, which will be attended by President Doumergue, the Prince of Wales, Gen. John J. Pershing and high French officials as well as representatives of many foreign countries.

The British embassy announced that the Prince of Wales would attend rather than Prince George, as first announced. The prince will represent King George. Prince Charles of Belgium will represent his country at the funeral.

It was estimated that probably 1,000,000 persons passed under the Arc de Triomphe to view the severe, grey casket resting on a cannon carriage upon which the light of four tall torches fell.

### ELECTRIC RAILWAY COMPANIES SOLD TO CHICAGO CONCERN

LIMA, O., March 25.—The sale of the Western Ohio Railway and Power Company and the Toledo, Bowling Green and Southern Traction Company, to the Empire Public Service Company of Chicago, has been announced by F. D. Carpenter, Lima, vice president and general manager of the Western Ohio Railway.

Carpenter said that approximately \$3,000,000 was involved in the deal. Floyd Woodcock, Chicago, is president of the Empire Public Service Company.

The new owners will take over the two traction systems May 15. Carpenter explained it was his understanding that the operation of the lines would be continued as heretofore with the probability of the addition of new cars and equipment and improvement of the systems. It is deemed likely the two lines eventually will be merged.

The Western Ohio Railway operates from Piqua through Lima to Findlay with a branch line running from Wapakoneta to St. Marys, Colina, New Bremen and Munster. The company has headquarters in Lima.

The Toledo, Bowling Green and Southern operates from Toledo to Findlay, with headquarters at Findlay.

The Western Ohio, incorporated in Ohio, October 11, 1909, operated 112 miles of lines. Its first car was run in March 1902. It has had franchises in all towns on the line for twenty-five years with the exception of Lima, where the tracks in the city are used under a traffic agreement.

Other officials of the Western Ohio are: J. P. Harris, Cleveland, president, and H. C. Lang, Cleveland, secretary-treasurer.

Officers of the Toledo, Bowling Green and Southern are: F. A. Kothier, Cincinnati, president, and Charles Smith, Findlay, general manager.

### WATCHMAN IS SLAIN BY THUGS

AKRON, March 25.—The body of Eli Grubb, 76-year-old watchman for the Horning Lumber Company, was found in a yard in the rear of the lumber yard early today.

Detectives believe the aged man was beset by thugs who planned to burglarize the lumber company office, and murdered him when he offered resistance.

Grubb was unarmed, although he usually carries a gun. His chain of keys was gone.

The body was found by George Weath, another employee of the company.

Grubb's eyes were blackened and attendants at the Billows morgue believe his skull was fractured, although no autopsy has been made.

### SPANISH AVIATORS TRYING FOR RECORD ON ATLANTIC TRIP

Spain Awaits News  
From Flyers On Rio  
de Janeiro Hop

SEVILLE, Spain, March 25.—Spain awaited today news of two clock flyers, Ignacio Jimenez Martin and Francisco Iglesias Braga, captains of the Spanish royal air force, who set out yesterday to establish a new world's distance record in the airplane "Jesus Gran Poder."

They started on a projected flight from Seville to Rio de Janeiro late yesterday afternoon, and were last reported skimming down the African coast toward Dakar, Africa, where they were scheduled to pass some time this morning.

When sighted over Cadiz they were flying high and fast and travelling at a pace of about 180 kilometers an hour.

It was from Dakar that they planned to strike out over the Atlantic for the South American continent.

Their big machine, driven by a Hispano-Suiza motor, was fuelled for 5,000 miles. The engine was working perfectly and experts were present at the take-off were confident that the daring Spanish air captains would accomplish their goal.

Primarily they were out to break the record established by Carlo Del Prete and Arturo Ferrarin of Italy who flew from Rome to South America, covering a distance of 4,449 miles but failing to reach their objective, Rio de Janeiro. The distance from Seville to Rio de Janeiro is 4,900 miles.

### SAMUEL REA DIES; WAS PENNSY HEAD

PHILADELPHIA, March 25.—Funeral services for Samuel Rea, 73, retired president of the Pennsylvania Railroad who died yesterday will be held late tomorrow at the Bryn Mawr Presbyterian Church.

Rea, who retired from active service with the railroad in 1925, after fifty-four years, was known as an engineer as well as a railroad executive. He was responsible for the construction of the Pennsylvania Railroad tubes under the Hudson River which made possible construction of the Pennsylvania Station on Seventh Avenue in New York City.

A "BITING" QUARREL.  
LANCASTER, O., March 25.—Harry Yee, 23, Chinese laundryman, because of his "biting" remarks to Jimmie Yee, 16, his protégé, languished in city jail in default of \$500 bond. Young Yee charged his boss bit him in the shoulder and arm in the course of a quarrel.

WANTS PENSION AT 110.  
CAPETOWN, March 25.—John Abrams, an African native, has just applied for his old-age pension. There is nothing extraordinary in that except that John claims to be 110 years old, and is believed to be the oldest applicant for such relief. He was emancipated from slavery by the Act of 1834.

### CHARLES RALLS HAS SCALP WOUND AFTER HOLD-UP ATTEMPT

Robbers Flee Without  
Searching Victim;  
Clews Meager

Charles Ralls, manager of the meat department at the S. Detroit St. branch Kroger grocery, was recovering Monday from a painful scalp wound sustained when he was attacked by two youthful appearing masked bandits near his home, 331 W. Market St., at 10:55 p. m. Saturday.

As Ralls passed an alley near his home, he heard some one say: "Stick 'em up," but believed he had overheard youngsters playing in a neighboring house. The men then repeated the command and Ralls whirled, shouting, "What do you mean?" to face the pair, masked with white handkerchiefs. One of his assailants then struck him on the side of the head, supposedly with a pistol butt, and knocked him down.

As he fell the hold-up men became frightened and ran away without stopping to search their victim. They made their escape through the same alley from which they had appeared when they accosted Ralls.

Although not rendered unconscious, Ralls was stunned by the blow and with blood streaming from the scalp wound, managed to make his way to his home. Mrs. Ralls summoned Dr. W. A. Galloway and also notified police who began an immediate investigation.

Dr. Galloway said Ralls suffered a jagged scalp wound about an inch long.

Ralls, who was carrying part of Saturday's store receipts home with him and had a considerable sum of money in his possession, could furnish police with only a meager description of his assailants. He was also carrying a sack of sugar on one shoulder and two boxes of strawberries in one hand.

Police learned from him that both robbers were tall, wore dark clothing and light caps and had handkerchiefs tied over the lower part of their faces.

They are said to have resembled two youths noticed by Harry E. Ralls, brother of the victim, who clerks in the grocery, loitering about the store earlier in the evening, glancing inside from time to time and acting suspiciously.

It is the theory that the bandits watched for Ralls to leave the store, trailed him part of the way home and then made a detour, awaiting in the alley for his arrival.

Later in the evening police arrested several suspects but released them when they proved their innocence of connection with the hold-up and could not be identified by Ralls.

### FEDERALS HURRIED TO MAZATLIN WHEN REBELS FORM ATTACK

MEXICO CITY, March 25.—Federal reinforcements, commanded by General Evaristo Perez, were scheduled to reach Mazatlan today to aid in defending that important Pacific seaport against the persistent attack of the rebels, according to a message received by the government from Plutarco Elias Calles.

This detachment, said to number several thousand men, was rushing from Irapuato several days ago and yesterday reached Rosario, which is only forty miles from Mazatlan. In addition to this body of troops, another column will be dispatched today from the Torreon sector toward Mazatlan, under the command of General Lazaro Cardenas according to General Calles.

Meanwhile, Calles' message added, General Juan Almazan and his corps have started north from Toluca in Chihuahua.

General Jaime Carrillo informed President Portes Gil last night that the situation around Mazatlan was unchanged after the battle yesterday. He said that the rebels resumed firing at intervals but without effect and that federal observers saw a heavy movement of rebels by automobile to Venadilla, four miles distant.

NACO, Ariz., March 25.—Mexican federalists remained entrenched in Naco, Sonora, just across the line from here today as rebel forces slowly moved northward to attack.

Insurrectionists, under the command of General Fausto Topete, were reported at Del Rio, twenty miles away, still delayed by burned bridges and destroyed railroad tracks.

General Lucas Gonzalez, in command of Naco federalists, strengthened his defenses, concentrated supplies and ammunition and bemoaned the loss of his only aviator, G. K. Morrison, an American, who was captured by the rebels.

Morrison was captured Saturday on his last scouting trip for the federalists. It was believed he would be interned by the rebels.

### MRS. RICHARD LE Sourd, BRIDE OF WEEK, HURT IN AUTO CRASH

Mrs. Lucile LeSourd, wife of Richard LeSourd, Cincinnati, former Xenian, suffered cuts above and below one eye that required several stitches to close when she was thrown through the windshield of her husband's auto as several cars crashed in Broad St. at Norton Field, Columbus Sunday night. She was attended at Grant Hospital.

They had returned to the home of Mrs. LeSourd's parents at Co-shooton, O., Saturday night following a week's honeymoon spent at New York City, and were en route to Cincinnati when the accident occurred about 6 p. m.

Mrs. LeSourd was driving and they were in a line of five cars approaching a busy intersection. A woman driving a car at the head of the line suddenly applied the brakes, causing the cars following her, including that of the LeSourds, to bump into each other. Mr. LeSourd was unhurt. They were afterward able to continue their trip.

### CHARLES RALLS HAS SCALP WOUND AFTER HOLD-UP ATTEMPT

Robbers Flee Without  
Searching Victim;  
Clews Meager

Charles Ralls, manager of the meat department at the S. Detroit St. branch Kroger grocery, was recovering Monday from a painful scalp wound sustained when he was attacked by two youthful appearing masked bandits near his home, 331 W. Market St., at 10:55 p. m. Saturday.

As Ralls passed an alley near his home, he heard some one say: "Stick 'em up," but believed he had overheard youngsters playing in a neighboring house. The men then repeated the command and Ralls whirled, shouting, "What do you mean?" to face the pair, masked with white handkerchiefs. One of his assailants then struck him on the side of the head, supposedly with a pistol butt, and knocked him down.

As he fell the hold-up men became frightened and ran away without stopping to search their victim. They made their escape through the same alley from which they had appeared when they accosted Ralls.

Although not rendered unconscious, Ralls was stunned by the blow and with blood streaming from the scalp wound, managed to make his way to his home. Mrs. Ralls summoned Dr. W. A. Galloway and also notified police who began an immediate investigation.

Dr. Galloway said Ralls suffered a jagged scalp wound about an inch long.

Ralls, who was carrying part of Saturday's store receipts home with him and had a considerable sum of money in his possession, could furnish police with only a meager description of his assailants. He was also carrying a sack of sugar on one shoulder and two boxes of strawberries in one hand.

Police learned from him that both robbers were tall, wore dark clothing and light caps and had handkerchiefs tied over the lower part of their faces.

They are said to have resembled two youths noticed by Harry E. Ralls, brother of the victim, who clerks in the grocery, loitering about the store earlier in the evening, glancing inside from time to time and acting suspiciously.

It is the theory that the bandits watched for Ralls to leave the store, trailed him part of the way home and then made a detour, awaiting in the alley for his arrival.

Later in the evening police arrested several suspects but released them when they proved their innocence of connection with the hold-up and could not be identified by Ralls.

### CALLS ON DEITY TO ROUT BANDIT

"In the name of God, depart from this room," commanded James L. Good, grocery store proprietor and bandit, leveling a finger at a would-be bandit who attempted to hold him up at his grocery store at "Five Points" about 9 o'clock Saturday night. Turning on his heel the bandit left.

Good, who is past seventy years of age, was alone in the grocery when the bandit, wearing overalls and a dark cap, entered. He was concealed by a dark blue handkerchief, entered, carrying a black satchel.

Drawing a revolver, he ordered the aged man to "put \$50 in the bag."

Instead of obeying the command, Good stood his ground. Pointing his finger at the intruder, he invoked the aid of the Deity and commanded the bandit to leave. He said the bandit turned around and left without another word.

A small girl standing in the street saw the masked man enter the grocery and notified neighbors. When they arrived at the store, however, there was no trace of the bandit.

Good operates a grocery at Second St. and Cincinnati Ave. and is also an elder in the Church of Christ of Latter Day Saints.

### MRS. RICHARD LE Sourd, BRIDE OF WEEK, HURT IN AUTO CRASH

Mrs. Lucile LeSourd, wife of Richard LeSourd, Cincinnati, former Xenian, suffered cuts above and below one eye that required several stitches to close when she was thrown through the windshield of her husband's auto as several cars crashed in Broad St. at Norton Field, Columbus Sunday night. She was attended at Grant Hospital.

# MASKED BANDITS ATTACK XENIAN COAST GUARD ARREST CHALLENGED

## BRITISH SCHOONER CAPTAIN SAYS SHIP WAS OUTSIDE LIMIT

Crew Being Held As Charges Prepared By Attorney

NEW ORLEANS, La., March 25.—Capt. John Thomas, skipper of the rum running British schooner I'm Alone today challenged the right of the United States coast guard in sinking his vessel with its cargo of 2,400 cases of liquor and capturing the skipper and the seven surviving members of his crew.

At the official although secret investigation into the episode, Capt. Randall charged that the coast guard cutters had no right to molest him because he was outside the twelve mile limit.

"I was at least fourteen and nearer fifteen miles off shore when this thing happened," Randall said. "I admit that my schooner carried a cargo of liquor but we were not in American waters and should not have been touched."

The inquiry also developed that United States district Attorney Edmund Talbot was preparing criminal proceedings against the captain and his crew and would charge them with violating the prohibition customs and tariff laws.

The hearing is being held before Assistant Attorney General Henderson, of Washington; the British vice-consul here; United States Attorney Edmund E. Talbot, and coast guard and revenue officials.

Seven of the crew of the schooner were landed here early yesterday in irons and under heavy guard. The body of the eighth, who lost his life when the ship sank and who was said to be Leon Malguy, native of St. Pierre, Martinique, a French possession, and a naturalized British subject, was also brought ashore.

The investigators hope to determine the exact cargo of the I'm Alone. Officials say she carried 2400 cases of liquor. Capt. John T. Randall, master of the I'm Alone, was vehement in his criticism of the manner in which his vessel was taken, and denied narcotics or aliens. He admitted he was engaged in the liquor smuggling trade.

He said he did not stop when challenged by the cutters "Walcutt and Dexter" because he was "within his rights and entitled to the freedom of the seas." He is formally charged with interference of a customs officer in his boarding duties.

## SENATOR FESS SAYS UNITED STATES MAY JOIN WORLD COURT

### Touches On Prohibition In Talk Before Students

ANN ARBOR, Mich., March 25.—Foreign and domestic problems with which Congress is battling were the basis of an address made by Senator Simon D. Fess, of Ohio, before 2,000 University of Michigan students at the first of a series of spring convocations in Hill Auditorium yesterday. The speaker touched only briefly on the prohibition question, yet said that the Eighteenth Amendment never would come out of the Constitution. He voiced opinion that the United States would become a member of the World Court.

"The Jones law is a modification of the Volstead act in the hope of making it more effective," said Senator Fess.

"The Volstead act may again be modified and in different ways but only with the thought of strengthening it. The Eighteenth Amendment will always remain a part of the Constitution."

Arguing for the World Court, Senator Fess said: "Causes of war will constantly arise, for disputes are inevitable between nations. Conciliation, negotiations, arbitration have all been tried and have failed."

"A judicial process should be added by which an impartial judgment may be rendered. The court is an American movement, yet we are not in it. I do believe, however, that we will become a member."

Senator Fess also spoke highly of the work of the seventeenth congress on the Kellogg peace pact, and declared that the outlawing of war by the nations that have signed the treaty was the longest step toward peace that has yet been taken by civilization.

Great Britain, he said, forced the United States to junk 900,000 tons of capital ships, yet refused to do away with her cruiser plans.

## DELAY OUSTER PROCEEDINGS AGAINST MAYOR GROH OF DOVER

OLUMBUS, O., March 25.—State Prohibition Commissioner Rupert R. Beetham will delay ouster proceedings against Mayor P. H. Groh of Dover until tomorrow, it was announced today.

Groh is accused of accepting a \$50 bribe from an "undercover" state prohibition agent who posed as a rum-runner and went to Groh "to buy" protection.

The mayor denied the charge and when he was arraigned pleaded not guilty and was released under \$10,000 bond.

Beetham was expected to begin ouster proceedings today but the prohibition commissioner was away from the city and will not return until tomorrow.

Meantime, the charges against the mayor were laid before Governor Myers Y. Cooper for final drafting.

Beetham and the governor discussed the case Saturday and it was decided at that time that the mayor would be formally charged.

## FARM RELIEF FIGHT APPEARS NEAR END AS HEARING STARTS

WASHINGTON, March 25.—End of the seven year struggle for general farm relief legislation appeared to be at hand today as the senate agriculture committee opened hearings on the bill which is to be passed early in the April 15 special session of congress.

Wide differences of opinion which twice prevented the enactment of the equalization fee system and thwarted any other general relief legislation appeared to be mitigated in the face of the general plea "give President Hoover a chance to work it out his way."

Joining or abiding silently in this plea were not only nearly all of the farm bloc members of congress but also the leaders of farm organizations like the American Farm Bureau Federation and the committee of twenty-two who have been ardent supporters of the old equalization fee.

This co-operative spirit at the start of efforts to write the new legislation led congressional authorities to predict a bill satisfactory to Mr. Hoover would be passed and signed before June 1.

The general outlines of the legislation have already been generally agreed upon. It will set up a federal farm board to administer a government revolving fund of perhaps \$300,000,000.

This money will be loaned to co-operative organizations representing various groups of farmers for each major commodity such as the wheat group, the corn group, the cotton group and others. With the loans the co-operative groups are expected to build warehouses to store their surplus production and thus to an extent control the market. With other loans they will finance a system of closer co-operative marketing by building elevators and other facilities.

The strong point of the measure is that all factions agree it will be helpful. It's weak point, conceded by its advocates, is that it makes no provision for handling the exportable surplus of products which in the last twenty-one years has amounted to about one-eighth of total production.

Friends of the measure are confident that while it will not be a curiall its beneficial effects may obviate the necessity of providing for some handling of the exportable surplus.

Nearly forty witnesses are to be heard by the senate committee, including nearly all the leaders of the larger farm organizations.

The hearings are expected to last two weeks and the bill will be ready for consideration in the senate the first day.

## GRAF ZEPPELIN ON NON-STOP FLIGHT

BERLIN, March 25.—The dirigible Graf Zeppelin, conqueror of the Atlantic last year, set out early today on a nonstop flight from Friedrichshafen to Palestine and return.

It had aboard a crew of forty men and a passenger list of twenty five.

The flight was scheduled to be the longest yet made by the dirigible. Dr. Hugo Eckener, commanding the flight, as he did the Friedrichshafen-New York trip last year, said the probable route would include France, Switzerland; Milan, Basle, Geneva, Genoa, and Palermo.

Sixteen thousand letters and cards to Egypt, Greece and Czechoslovakia were aboard.

The passenger list included many prominent members of the Reichstag and other high officials. German newspaper correspondents aboard radioed reports of the founding of the first aerial chess club with Dr. Hugo Eckener as the president. Games are proceeding as the dirigible glides ahead on its course.

## SOUTHERN FLOOD RECEDING

### LEAVE MANY DEATHS AND MUCH PROPERTY LOSS IN TENNESSEE

#### Recover Bodies Of Seven Boy Scouts; Hero Revealed

KNOXVILLE, Tenn., March 25.—Chaotic flood conditions in the south were improved today with the advent of warm, sunny weather, but sorrow lingered over sections of Tennessee where human lives were claimed Friday night by raging torrents resulting from cloudbursts.

Stopping of the almost unprecedented rains of the past few weeks was welcomed by the homeless left by the receding waters, confined in most part to the states of Alabama, Tennessee, Florida and some few in Georgia.

The death toll at Harriman, on the Emory River in eastern Tennessee, is placed at twenty-three persons while the property loss there was estimated at more than \$2,000,000.

Only one of the town's major plants escaped serious damage by the flood waters which raged through the streets to a depth of thirty feet early Saturday morning.

The Harriman hosiery mill was said to have escaped heavy loss, although five other plants were said to be practically destroyed.

The bodies of seven members of a Boy Scout troop swept away by the waters of White's Creek near Rockwood, Tenn., had been recovered today, while search continued for that of another. Four of the victims were found yesterday by a searching party from Rockwood and a group of Boy Scouts from Chattanooga.

Alarm was felt in the city of Chattanooga today as the crest of the Tennessee River swept nearer, with a flood stage of thirty-eight feet predicted. Some families have fled from their homes in the low portions of the city, while transportation arteries were at a standstill.

The heroic act of one scout who gave his life in an attempt to succor his scoutmaster after the cabin of the troop was swept into swollen White's Creek near Rockwood became known today.

James T. Wright, of Rockwood, leader of the boys in the camp situated on the banks of the normally quiet stream, was thrown from the roof where the troop had taken refuge and was swept away. J. C. Hill, Jr., leaped into the flood after him and both were drowned.

Scout William Evans rescued two other boys from his perch on a tree trunk as they floated by on the current beneath.

The bodies recovered yesterday were those of Fred Burnett, Roy Green, Lawrence Montgomery and Woodrow Kerr. The bodies of Ed Burnett, twin brother of Fred Burnett, and Wright and Hill had been found Saturday.

Jack Shambarth is believed to have drowned, although his body had not been recovered.

## PERSHING OFFERED OIL CZAR'S OFFICE

PARIS, March 25.—General John J. Pershing today told the United Press he was approached several months ago regarding a proposition that he become the high commissioner of the oil industry, a position similar to that occupied by former Federal Judge K. M. Landis in baseball and Will Hays in the cinema industry.

COLUMBUS, O., March 25.—The general appropriations bill, carrying approximately \$65,000,000, will be introduced in the state legislature tonight.

Introduction of the measure will mark "the beginning of the end" of the eighty-eighth general assembly.

The bill will be introduced by Rep. W. C. Wendt of Columbus, chairman of the house finance committee. If submitted on schedule it will be sent back to the committee for final examination and probably will be voted on Wednesday or Thursday.

Once the bill is approved by the house and senate the end of the session is not far away. Present indications are that sine die adjournment may be taken in the second week in April and possibly in the first.

The most important of "unsettled business" before the solons is the bill proposing to increase the state gasoline tax.

This fight probably will be determined this week.

Administration measures which still remain on the calendars include the Marshall corporation laws reclassification bill, the Herbert blue sky reclassification measure, the Gillen bill for reclassification of the criminal code, the Emmons conservation measure and the Herbert-Martin election code bill.

## Foch Rests In Cathedral As Funeral Plans Made

PARIS, March 25.—Marshal Ferdinand Foch rested within a tiny chapel of Notre Dame Cathedral today as final preparations were made for one of the most impressive funerals ever held in France. The uncertain flames of candles lighted the dim chapel to which the body of the war leader was removed from beneath the Arc de Triomphe, where tens of thousands paid him homage all day Sunday.

## ELECTRIC RAILWAY COMPANIES SOLD TO CHICAGO CONCERN

### Two Traction Lines Are Involved In Utilities Deal

LIMA, O., March 25.—The sale of the Western Ohio Railway and Power Company and the Toledo, Bowling Green and Southern Traction Company, to the Empire Public Service Company of Chicago, has been announced by F. D. Carpenter, Lima, vice president and general manager of the Western Ohio Railway.

Carpenter said that approximately \$3,000,000 was involved in the deal. Floyd Woodcock, Chicago, is president of the Empire Public Service Company.

The new owners will take over the two traction systems May 15. Carpenter explained it was his understanding that the operation of the lines would be continued as heretofore with the probability of the addition of new cars and equipment and improvement of the systems. It is deemed likely the two lines eventually will be merged.

The Western Ohio Railway operates from Lima through Lima to Findlay with a branch line running from Wapakoneta to St. Marys, Celina, New Bremen and Minster. The company has headquarters in Lima.

The Toledo, Bowling Green and Southern operates from Toledo to Findlay, with headquarters at Findlay.

The Western Ohio, incorporated in Ohio, October 11, 1909, operated 112 miles of lines. Its first car was run in March 1902. It has had franchises in all towns on the line for twenty-five years with the exception of Lima, where the tracks in the city are used under a traffic agreement.

Other officials of the Western Ohio are: J. P. Harris, Cleveland, president, and H. C. Lang, Cleveland, secretary-treasurer.

Officers of the Toledo, Bowling Green and Southern are: F. A. Kothler, Cincinnati, president, and Charles Smith, Findlay, general manager.

## WATCHMAN IS SLAIN BY THUGS

AKRON, March 25.—The body of Eli Grubb, 76-year-old watchman for the Horning Lumber Company, was found in a yard in the rear of the lumber yard early today.

Detectors believe the aged man was beset by thugs who planned to burglarize the lumber company office, and murdered him when he offered resistance.

Grubb was unarmed, although he usually carries a gun. His chain of keys was gone.

The body was found by George Weath, another employee of the company.

Grubb's eyes were blackened and attendants at the Billows morgue believe his skull was fractured, although no autopsy has been made.

## APPROPRIATION S BILL WILL BE INTRODUCED IN SENATE

COLUMBUS, O., March 25.—The general appropriations bill, carrying approximately \$65,000,000, will be introduced in the state legislature tonight.

Introduction of the measure will mark "the beginning of the end" of the eighty-eighth general assembly.

The bill will be introduced by Rep. W. C. Wendt of Columbus, chairman of the house finance committee. If submitted on schedule it will be sent back to the committee for final examination and probably will be voted on Wednesday or Thursday.

Once the bill is approved by the house and senate the end of the session is not far away. Present indications are that sine die adjournment may be taken in the second week in April and possibly in the first.

The most important of "unsettled business" before the solons is the bill proposing to increase the state gasoline tax.

## CHARLES RALLS HAS SCALP WOUND AFTER HOLD-UP ATTEMPT

### Robbers Flee Without Seaching Victim; Clews Meager

Charles Ralls, manager of the meat department at the S. Detroit St. branch Kroger grocery, was recovering Monday from a painful scalp wound sustained when he was attacked by two youthful appearing masked bandits near his home, 331 W. Market St., at 10:55 p. m. Saturday.

As Ralls passed an alley near his home, he heard some one say: "Stick 'em up," but believed he had overheard youngsters playing in a neighboring house. The men then repeated the command and Ralls whirled, shouting, "What do you mean?" to face the pair, masked with white handkerchiefs. One of his assailants then struck him on the side of the head, supposedly with a pistol butt, and knocked him down.

When he fell the hold-up men became frightened and ran away without stopping to search their victim. They made their escape through the same alley from which they had appeared when they accosted Ralls.

Although not rendered unconscious, Ralls was stunned by the blow and with blood streaming from the scalp wound, managed to make his way to his home. Mrs. Ralls summoned Dr. W. A. Galloway and also notified police who began an immediate investigation.

Dr. Galloway said Ralls suffered a jagged scalp wound about an inch long.

Ralls, who was carrying part of Saturday's store receipts home with him and had a considerable sum of money in his possession, could furnish police with only a meager description of his assailants. He was also carrying a sack of sugar on one shoulder and two boxes of strawberries in one hand.

Police learned from him that both youths were tall, wore dark clothing and light caps and had handkerchiefs tied over the lower part of their faces.

They are said to have resembled two youths noticed by Harry E. Ralls, brother of the victim, who clerks in the grocery, loitering about the store earlier in the evening, glancing inside from time to time and acting suspiciously.

It is the theory that the bandits watched for Ralls to leave the store, trailed him part of the way home and then made their attack, waiting in the alley for his arrival.

Later in the evening police arrested several suspects but released them when they proved their innocence of connection with the hold-up and could not be identified by Ralls.

## CALLS ON DEITY TO ROUT BANDIT

"In the name of God, depart from this room," commanded James L. Good, grocery store proprietor and church elder, leveling a finger at a would-be bandit who attempted to hold him up at his grocery store at "Five Points" about 9 o'clock Saturday night. Turning on his heel the bandit left.

Good, who is past seventy years of age, was alone in the grocery when the bandit, wearing overalls and with the lower part of his face concealed by a dark blue handkerchief, entered, carrying a black satchel.

Drawing a revolver, he ordered the aged man to "put \$50 in the bag."

Instead of obeying the command, Good stood his ground. Pointing his finger at the intruder, he invoked the aid of the Deity and commanded the bandit to leave. He said the bandit turned around and left without another word.

A small girl standing in the street saw the masked man enter the grocery and notified neighbors. "When they arrived at the store, however, there was no trace of the bandit."

Good operates a grocery at Second St. and Cincinnati Ave. and is also an elder in the Church of Christ of Latter Day Saints.

## MRS. RICHARD LE SOURD, BRIDE OF WEEK, HURT IN AUTO CRASH

Mrs. Lucile LeSourd, wife of Richard LeSourd, Cincinnati, former Xenian, suffered cuts about and below one eye that required several stitches to close when she was thrown through the windshield of her husband's auto as several cars crashed in Broad St. at Norton Field, Columbus Sunday night. She was attended at Grant Hospital.

They had returned to the home of Mrs. LeSourd's parents at Co-shooton, O., Saturday night following a week's honeymoon spent at New York City, and were en route to Cincinnati when the accident occurred about 6 p. m.

Mr. LeSourd was driving and they were in a line of five cars approaching a busy intersection. A woman driving a car at the head of the line suddenly applied the brakes, causing the cars following her, including that of the LeSourds, to bump into each other. Mr. LeSourd was unhurt. They were afterward able to continue their trip.

Mr. and Mrs. LeSourd are the son and daughter-in-law of Mr. and Mrs. H. S. LeSourd, of Market St.

Rea, who retired from active service with the navy in 1925, after fifty-four years, was known as an engineer as well as a railroad executive. He was responsible for the construction of the Pennsylvania Railroad tubes under the Hudson River which made possible construction of the Pennsylvania Station on Seventh Avenue in New York City.

A "BITING" QUARREL. LANCASTER, O., March 25.—Harry Yee, 25, Chinese laundryman, because of his "biting" remarks to Jimmie Yee, 16, his protégé, languished in city jail in default of \$500 bond. Young Yee charged his boss bit him in the shoulder and arm in the course of a quarrel.

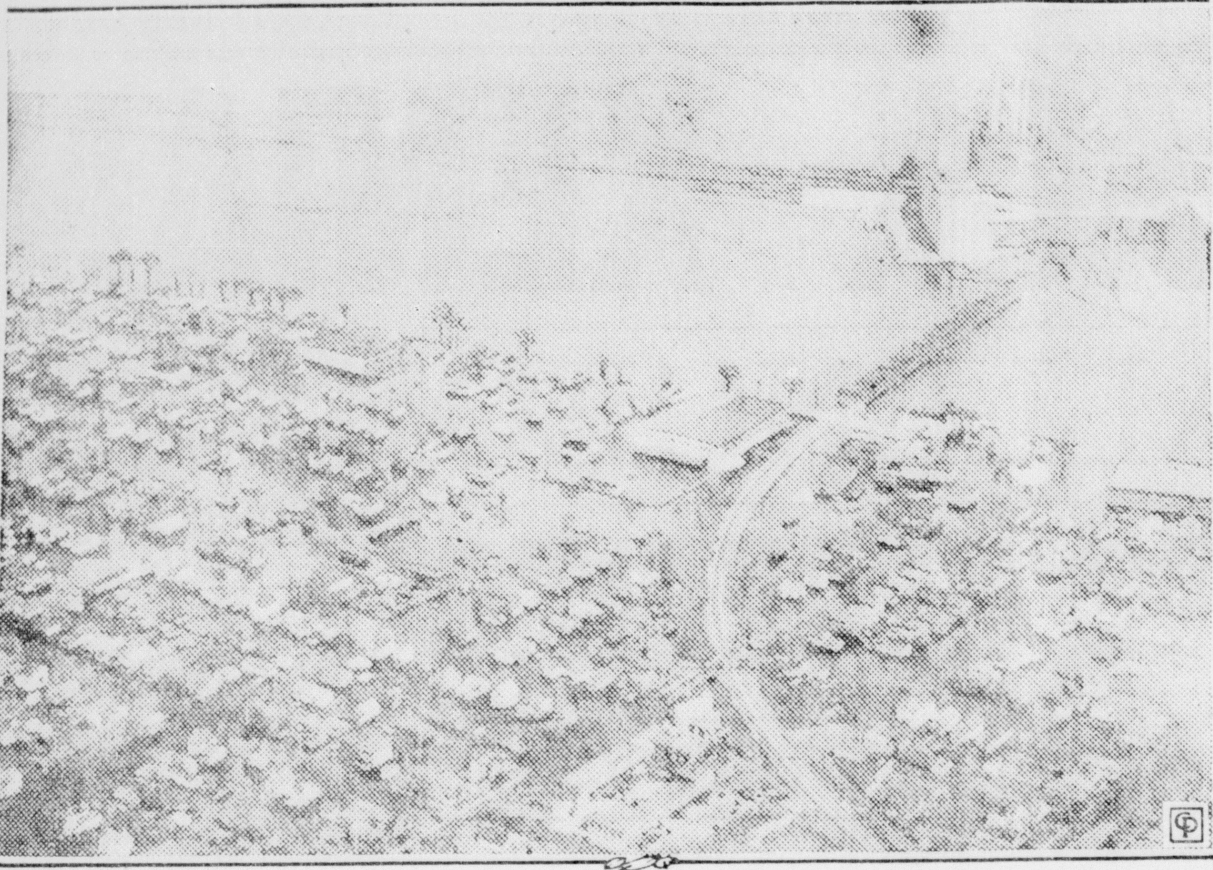

WANTS PENSION AT 110. CAPETOWN, March 25.—John Abrams, an African native, has just applied for his old-age pension. There is nothing extraordinary in that except that John claims to be 110 years old, and is believed to be the oldest applicant for such relief. He was emancipated from slavery by the Act of 1834.

## TURBULENT IOWA STREAM FLOODS CEDAR RAPIDS

When the Cedar river went on its worst rampage in 45 years, thousands in Cedar Rapids, Ia., were made homeless, and heavy damage was done to residence and business property. Above, an airplane view of the flooded section.

## EASTER SEASON MEANS THE RENEWAL OF ALL LIFE

Easter not only suggests the coming back of the birds and flowers and buying new spring clothes, it should mean a renewal of all life. This idea is conveyed in the decorations of the table pictured. It is suitable for an Easter breakfast, a luncheon or dinner, although not, of course, a formal affair, unless the hostess is anxious to produce an original effect by combining a formal occasion with very unconventional table effects. The centerpiece is an arrangement of spring flowers in a low bowl. The bowl is surrounded with green paper grass, in which are nestled wee bunnies, chicks, ducklings, etc. The favors are tiny chicks just emerging from the shell, or, if you prefer, candy Easter eggs wrapped in transparent paper, tied with ribbon and topped by a duckling, as pictured in inset. Grown-ups, as well as children, will like the cunning baby birds and animals, which, with the flowers, are all typical of new life.

## SCENES AS FLOOD WATERS ABATED IN ALABAMA TOWN

In order to prevent spread of typhoid and malaria, vaccinating of victims of the Alabama floods was begun as soon as doctors were able to reach the marooned people. Right, above, citizens of Elba, which was inundated by the overflowing of two rivers, are being vaccinated. Left, Mrs. J. W. Ellis, also of Elba, with three of her five children. The other two became separated from her during the flood.

## In the Heart of the Rebel Camp

Here are shown rebel troops constructing a fort, right, at Ortiz, Sonora. However, Mexico City remained optimistic, and while frankly conceding that the rebels, commanded by General Francisco Manzo, were in control of Sonora, they predicted an early surrender to the Federals. General Manzo, left, commander of the troops at Nogales, is openly charged by President Portes Gil with being the leader of the rebels in Sonora.

## ROUMANIA HEARS RUMOR CAROL MAY SUPPLANT SON

Approach of May 10th, the day when Michael, seven-year-old king of Roumania, will, for the first time, formally assume the duties of his office and will reply to addresses of loyalty from the regency and cabinet, revives rumors of the return of Prince Carol, his father, to Roumania, to act as regent, in accordance with the wishes of his mother, Queen Marie. Above, left, Princess Helene, from whom Carol is estranged; center, the boy king, and right, Queen Marie. Below, left to right, Prince Nicholas, Michael's uncle and one of the regents; center, Mme. Lupesco, whom Carol wishes to marry, and right, Prince Carol. Queen Marie and Carol are said to have conferred in Paris concerning her son's return to Roumania since she is declared to be dissatisfied with the regency.

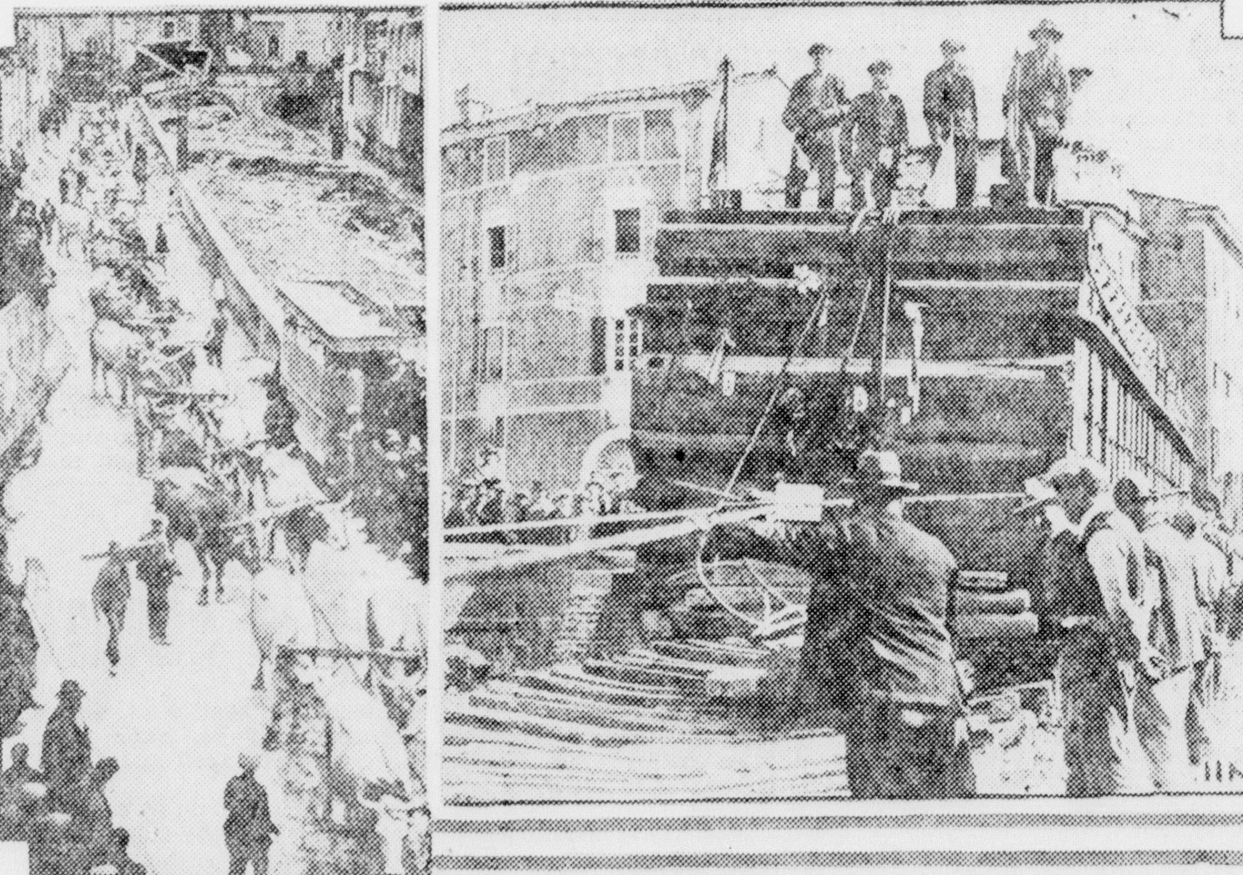

## \$250,000 Richer

Galina Kopernak, young Russian actress, finds that her reward for befriending a Russian royalist, is to be given to her right here on earth. Twenty years ago she advanced funds to enable Nicholas Arliokop to come to Canada where he made the fortune he now wills to her.

Royal disapproval has balked the romance of Greta Garbo, film star, and Prince Sigurd, inset, the Duke of Upland, and son of Crown Prince Gustav of Sweden. Ever since the arrival of the actress in Stockholm, some weeks ago, she has frequently been seen in the company of the prince. After a dramatic scene in the royal household, Greta went into seclusion, 'tis said, in a little Swedish village, and Sigurd, who is 22, was forbidden to see her.

## Five Years Unceasing Labor Nearly Done

After five years of intensive labor by a small army of workmen, the great monolith, weighing 400 tons, has been taken from the quarry at Carrara, Italy, and is on the road to Rome where it will be worked into a memorial to Premier Mussolini. The great block of marble is shown at the right crated, in itself a tremendous undertaking, sliding along the road on skids and rollers while at the left are some of the forty teams of oxen being used to drag the huge stone. Exceptional engineering problems had to be solved not alone to cut the marble in this huge size but in the transshipment by boat to Rome after the tedious road trip.

## CHOICE OF HOLLAND'S QUEEN-TO-BE

Prince Sigurd, duke of Upland, inset, 22-year-old son of the crown prince of Sweden, has been chosen to become prince consort to Crown Princess Juliana, above, Holland. Official announcement of their engagement is expected shortly. She's 20.

A murder trial of intense interest is scheduled to begin in Richmond, Va., on March 26, when Marion L. Craig, 28, right above, must answer the charge of doing away with William R. Liggon, whose widow, left, above, he married less than a month after Liggon was drowned in the James river, at the spot shown in lower picture. Judge John L. Ingram, center, will preside. Investigation showed Liggon's skull was fractured. Craig said when a rowboat he and Liggon occupied overturned, Liggon began to drag him down and he had to hit him with a stick to save his own life.

## STILLMANS AGAIN IN COURT

After eight years the troubles of the James A. Stillmans, Fred K. Beauvais, Indian guide, and Flo Leeds, again echo in the courts of New York. Beauvais, accused in a divorce suit by Stillman of being the father of little Guy Stillman, has brought a libel suit for \$500,000 against Stillman, his former employer. He has asked permission of the court to name Flo Leeds, who figured in the divorce trial, as co-defendant, declaring she conspired to "frame" him and Mrs. Stillman so that Stillman could procure a divorce. Beauvais and Mrs. Leeds are above and the Stillmans below.

## Principals In Coming Nuptials Honored

DR. AND Mrs. Lawrence H. Shields, E. Second St., entertained a group of young people at their home Saturday evening honoring Miss Mary Little and Mr. Eddy William Eckey of Cincinnati. There were five tables of bridge play during the evening and Miss Helen Santmyer, Miss Margaret Prugh, and Mr. William McCallister were the high score prize winners.

## Invitations Issued For Little-Eckey Nuptials

INVITATIONS reading as follows, have been received by Xenia friends:

Mr. George Little requests the honor of your presence

### DAYTON QUARTET RENDERS "PASSOVER"

"The Passover," by Ashford, was rendered by the quartet choir from the Forest Avenue Presbyterian Church of Dayton in a delightful and impressive sacred song service at the Second United Presbyterian Church, Sunday evening.

The quartet was composed of Miss Dorothy Oglesbee, whose home is in Cedarville and who is a popular soprano soloist in this community. Mrs. Marguerite Lemmons, contralto, Mr. Harold Weeks, tenor, and Mr. H. C. Darst, bass, all of Dayton. Mrs. Marie Starnes Marks, one of Dayton's most talented organists, accompanied the quartet.

Services were opened with singing by the congregation which was followed by the invocation by Dr. H. B. McElree, pastor of the Second U. P. Church.

The Dayton quartet came to Xenia under the auspices of the choir of the Second U. P. Church.

### EASTER CONCERT IS PRESENTED BY CHOIR.

The First Reformed Church Choir was heard in an Easter concert Sunday evening by a very large and attentive audience.

The program followed the Catholic plan, picturing in music the passion week from the triumphal entry of Christ, his lowliness and agony to his death, burial and resurrection.

Special mention should be given Mrs. Raymond Wolf and Mrs. John Watkins who sang a group of solos. The trio consisted of Mrs. James Hawkins, Mrs. Raymond Wolf, and Mrs. William McGervey. The ensemble accompanying the choir was composed of Miss Margaret Steele, at the piano; Mrs. Louis Hammerle, violin; and Miss Lois Steele, cellist.

### XENIA D. A. R. MEMBERS TO ATTEND MEETING.

Mrs. A. C. Messenger, Mrs. W. H. McGervey, Mrs. Jacob Baldwin, and Mrs. F. A. Jackson are among the Xenia people who will attend the state conference of the D. A. R. at Toledo, beginning Tuesday, March 26 and continuing to March 29.

Mrs. William Wilson, who recently returned to this country after spending the winter in Honolulu, will join the Xenia party in Toledo.

For those not attending the conference, President-General Mrs. Alfred Brasseau will give an address over station WSPD at Toledo, Tuesday evening from 7:30 to 8:00 o'clock.

### WHITE CHAPEL CLUB TO MEET THURSDAY

The White Chapel Community Club will meet at the school house Thursday evening, for the public auction of the quilt which the Ladies Aid Society made several weeks ago. The quilt will go to the highest bidder.

A good program is being arranged consisting of readings by Mrs. Joseph Mason, good music and a playlet. Each family please bring sandwiches and fruit salad. The public is invited.

Mr. George Chitty, left last Monday for St. Louis, Mo., where he will enter the Roberts Flying School.

Mr. and Mrs. Fred St. John, Stevenson Road, are announcing the birth of a son, Thursday, March 21. The baby has been named Roger Walton.

Miss Betty Stark, S. Detroit St., entertained eight members of her Sunday School class of the First Reformed Church, at an Easter party at her home Saturday afternoon. Games and contests were enjoyed after which a refreshment course was served.

Xenia Lodge No. 52, I. O. O. F., will confer the initiatory degree on a class Tuesday evening. Visitors are welcome.

Mr. Robert H. Kelbie, has taken a position as card writer and window trimmer at the Metropolitan Clothing Store, Dayton.

Mrs. and Mrs. C. M. Thornhill, have returned to their home on W. Second St., after spending the winter with Mrs. Thornhill's sister in Sullivan, Ind.

Mr. and Mrs. William Adams, near Bowersville, were pleasantly surprised Sunday with a lovely dinner given at their home, the occasion being Mrs. Adams' thirty-ninth birthday. Those present were: Mr. and Mrs. J. D. Adams, Xenia, Mr. and Mrs. Passinger, Jewettown, Mr. and Mrs. Steve Cline and family, Bowersville, Mr. and Mrs. Raymond Pickering and family, New Jasper, and Mr. and Mrs. Russell Adams, Bowersville.

Mr. H. E. Schmidt, student at the Massanutten Military Academy Woodstock, Virginia, is spending his spring vacation here with his parents Mr. and Mrs. E. H. Schmidt, W. Third St.

Willard Bennington, son of Mr. and Mrs. W. R. Bennington, W. Church St., is spending the spring vacation week with his uncle and aunt, Mr. and Mrs. W. E. Shultz at Grandville.

## PROPHET'S KIN BREAKS PRECEDENT

Although little Seyda El Kilani is only 10 weeks old she has already broken two precedents. She is a descendant of the prophet Mohammed and is the first of her line in 1,340 years to be born outside of her native land. It is against tradition for Mohammedan women to be photographed, and so the little girl broke another by having her picture snapped, above, with her father and mother, at Oakland, Cal., her birthplace.

### SPRING VALLEY W. C. T. U. MEETS

The March meeting of the Spring Valley W. C. T. U. was held at the home of Mrs. Amos Mendenhall, Thursday.

"Peace" was the subject of the program, led by Mrs. John Peterson. The Rev. Ralph Knoop presented ways in which peace could be obtained, in a short talk. The Bible bill and the malt bill before the general assembly were discussed favorably. Mrs. H. O. Collins and Mrs. Ralph Watkins, supervisor of music in Caesar Creek Twp., schools furnished music for the afternoon. A general social time was enjoyed following the meeting.

Messrs. Richard and Edward Sayre, Cincinnati, spent the week-end here visiting their parents, Mr. and Mrs. H. L. Sayre. Miss Marjorie DuBouff of Cincinnati motored up with them and was the guest of Miss Eileen Sayre.

### To Serve Uncle Sam

Miss Gudrun Carlson, of Minneapolis, Minn., appointed United States trade commissioner at Oslo, Norway, is the third woman named for service in the interest of American business abroad.

### Stop Head Colds

Musterole Laxative Cold Tablets quickly rid you of colds, aches and pains. Don't delay. Take this mild but effective remedy at first sign of a cold. Prompt relief. No unpleasant effects. Chocolate-coated—easy to take. All druggists or direct postpaid, 35c. Musterole Company, Cleveland.

## ATTENTION HIGH SCHOOL BOYS

If you want to make some real money during your spare time, write H. Rudy, 915 S. Wayne Ave., Dayton, Ohio, giving your name address and age.

## REDUCE AT HOME

Without Exercise or Diet. Each Treatment Guaranteed To Reduce from 2 to 4 pounds. Perfectly Harmless. Phone 430 W. 115 N. Detroit St.

## NURSERY STOCK

Fruit And Ornamental Trees Shrubbery Perennials Cabbage Plants Now Ready. Phone 549-W. R. O. DOUGLAS Cor. Washington and Monroe Sts.

## FENNSY TRANSFERS HARPER KEPLER TO MICHIGAN BRANCH

Position of material supervisor at the Xenia yards of the Pennsylvania Railroad has been abolished with the transfer of W. H. Kepler, N. Detroit St., to a branch line of the Pennsylvania at Grand Rapids, Mich. Kepler left Sunday to take up his new duties.

Kepler replaces Frank Murray, Grand Rapids, Mich., who has been transferred to Cincinnati as material supervisor for the Cincinnati Division, the office having been moved from Xenia to that city.

Kepler will have a similar position at Grand Rapids on the old Grand Rapids and Indiana line, which was absorbed by the Pennsylvania lines.

He was employed at the Xenia yards for twenty-two years, formerly as storekeeper, as the position was originally known. The name was changed to material supervisor four or five years ago when a division storehouse was abandoned here. Since that time he had charge of purchasing supplies for the division.

No other employees are affected by the removal of the office to Cincinnati, it is announced.

## COOPER APPEAL TO BE HEARD TUESDAY

Appeal of Gilbert Cooper, 49, from a first degree murder conviction and life sentence in connection with the slaying of Caleb Hitchcock, near Cedarville, last November 24, will be considered by the Court of Appeals, Second District, when it convenes in Common Pleas Court Tuesday morning. Thirteen other cases, including appeals from four liquor convictions, are also docketed for consideration by the appellate court.

### GETS FELLOWSHIPS

COLUMBUS, O., March 25.—Dr. Edward Mack, Jr., and Dr. George Remington Havens of Ohio State University, have received word that they have been appointed to John Simon Guggenheim Memorial fellowships, for one year's study abroad.

## DEATH CLAIMS MRS. JESSIE A. STUTSON

Mrs. Jessie Allen Stutson, 64, mother of Donald Stutson of Dayton, died Friday at the home of her daughter, Mrs. Virgil Schaeffer, in Dayton.

She had been in ill health for several months, and about four weeks ago was brought to Dayton from her home in Los Angeles, by her son. The son and daughter are the only surviving children. Funeral services were conducted Sunday afternoon at the Schaeffer home, and the body taken to Nevada, Iowa Mrs. Stutson's former home, for interment. Mrs. Donald Stutson was before marriage Miss Julia Wolf of Xenia.

## FIVE BEST RADIO FEATURES

TUESDAY

WLW Cincinnati (428) 8 p. m. EST—Orchestra from the Cincinnati Symphony.

WABC and CBS Network 9 p. m. EST—Paul Whiteman and his orchestra.

WEAF and NBC Network 9 p. m. EST—Russian Cathedral Choir, soloist James Stanley, basso.

WABC and CBS Network 10 p. m. EST—Curtis Institute Hour, vocal and instrumental solos.

WEAF and NBC Network 11 p. m. EST—Vaudeville hour with prominent stars.

## PROGRAM RE-OPENS GALLOWAY HALL

With an appropriate program the auditorium of Galloway Hall of the Wilberforce University C. N. and I. Department, which has been closed for repairs, was re-opened Saturday evening.

Many old graduates and friends of the institution were present from nearby cities for the exercises.

Following a special musical program arranged by Supt. R. C.

Bundy, a moving picture, "A Woman of Affairs" featuring John Gilbert and Grete Garbo, was shown.

## VACATION STARTS

Spring vacation started Monday for nearly 2,000 pupils in the

Xenia public schools. Technically it began with the dismissal of school last Friday afternoon. Students will have a week of leisure and classes will re-convene next Monday morning, April 1. Pupils of St. Bridget parochial school will be released Tuesday evening for their annual spring vacation and classes will be resumed Tuesday, April 2.

## INDISPOSED

THE knowing woman no longer submits meekly to regular, systemic suffering. This kind of pain is just as readily relieved as the occasional headache, or twinge of neuralgia, or other aches and pains for which the world takes Bayer Aspirin. These tablets are marvelously effective at such times, as nearly every business or professional woman has discovered. And physicians have declared there is no harm in their free use, for genuine Bayer Aspirin does not depress the heart. All druggists.

## Principals In Coming Nuptials Honored

DR. AND Mrs. Lawrence H. Shields, E. Second St., entertained a group of young people at their home, Saturday evening honoring Miss Mary Little and Mr. Eddy William Ekey of Cincinnati.

There were five tables of bridge play during the evening and Miss Helen Sauter, Miss Margaret Prugh, and Mr. William McCallister were the high score prize winners.

## Invitations Issued For Little-Eckey Nuptials

INVITATIONS reading as follows: I have been received by Xenia friends: Mr. George Little requests the honor of your presence

**DAYTON QUARTET RENDERS "PASSOVER"**

"The Passover," by Ashford, was rendered by the quartet choir from the Forest Avenue Presbyterian Church of Dayton in a delightful and impressive sacred song service at the Second United Presbyterian Church, Sunday evening.

The quartet was composed of Miss Dorothy Oglesby, whose home is in Cedarville and who is a popular soprano soloist in this community, Mrs. Marguerite Lemmons, contralto, Mr. Harold Beas, tenor, and Mr. H. C. Darst, bass, all of Dayton. Mrs. Marie Stanye Marks, one of Dayton's most talented organists, accompanied the quartet.

Services were opened with singing by the congregation which was followed by the invocation by Dr. H. B. McKee, pastor of the Second U. P. Church.

The Dayton quartet came to Xenia under the auspices of the choir of the Second U. P. Church.

**EASTER CONCERT IS PRESENTED BY CHOR.**

The First Reformed Church Choir was heard in an Easter concert Sunday evening by a very large and attentive audience.

The program followed the Catholic plan, picturing in music the passion week from the triumphal entry of Christ, his lowliness and agony to his death, burial and resurrection.

Special mention should be given Mrs. Raymond Wolf and Mrs. John Watkins who sang a group of solos. The trio consisted of Mrs. James Hawkins, Mrs. Raymond Wolf, and Mrs. William McGervey. The ensemble accompanying the choir was composed of Miss Margaret Steele, at the piano; Mrs. Louis Hammer, violin and Miss Louis Street, cellist.

**XENIA D. A. R. MEMBERS TO ATTEND MEETING.**

Mr. A. C. Messenger, Mrs. W. H. McGervey, Mrs. Jacob Baldwin, and Mrs. F. A. Jackson are among the Xenia people who will attend the state conference of the D. A. R. at Toledo, beginning Tuesday, March 26 and continuing to March 29.

Mrs. William Wilson, who recently returned to this country after spending the winter in Honolulu, will join the Xenia party in Toledo.

For those not attending the conference, President-General Mrs. Alfred Brasseur will give an address over station WSPD at Toledo, Tuesday evening from 7:30 to 8:00 o'clock.

**WHITE CHAPEL CLUB TO MEET THURSDAY**

The White Chapel Community Club will meet at the school house Thursday evening, for the public auction of the quilt which the Ladies Aid Society made several weeks ago. The quilt will go to the highest bidder.

A good program is being arranged consisting of readings by Mrs. Joseph Mason, good music and a playlet. Each family please bring sandwiches and fruit salad. The public is invited.

Mr. George Chitty, left last Monday for St. Louis, Mo., where he will enter the Roberts Flying School.

Mr. and Mrs. Fred St. John, Stevenson Road, are announcing the birth of a son, Thursday, March 21. The baby has been named Roger Walton.

Miss Betty Stark, S. Detroit St., entertained eight members of her Sunday School class of the First Reformed Church, at an Easter party at her home Saturday afternoon. Games and contests were enjoyed after which a refreshment course was served.

Xenia Lodge No. 52, I. O. O. F., will confer the initiatory degree on a class Tuesday evening. Visitors are welcome.

Mr. Robert H. Kelble, has taken a position as card writer and window trimmer at the Metropolitan Clothing Store, Dayton.

Mr. and Mrs. C. M. Thornhill, have returned to their home on W. Second St., after spending the winter with Mrs. Thornhill's sister in Sullivan, Ind.

Mr. and Mrs. William Adams, near Bowersville were pleasantly surprised Sunday with a lovely dinner given at their home, the occasion being Mrs. Adams' thirty-ninth birthday. Those present were: Mr. and Mrs. J. D. Adams, Xenia, Mr. and Mrs. Passinger, Jewstown, Mr. and Mrs. Steve Gline and family, Bowersville, Mr. and Mrs. Raymond Pickering and family, New Jasper, and Mr. and Mrs. Russell Adams, Bowersville.

Mr. H. E. Schmidt, student at the Massanutten Academy Woodstock, Virginia, is spending his spring vacation here with his parents Mr. and Mrs. E. H. Schmidt, W. Third St.

Willard Bennington, son of Mr. and Mrs. W. R. Bennington, W. Church St., is spending the spring vacation week with his uncle and aunt, Mr. and Mrs. W. E. Shultz at Granville.

## PROPHET'S KIN BREAKS PRECEDENT

Although little Seyda El Kilani is only 10 weeks old she has already broken two precedents. She is a descendant of the prophet Mohammed and is the first of her line in 1,340 years to be born outside of her native land. It is against tradition for Mohammedan women to be photographed, and so the little girl broke another by having her picture snapped, above, with her father and mother, at Oakland, Cal., her birthplace.

## SPRING VALLEY W. C. T. U. MEETS

The March meeting of the Spring Valley W. C. T. U. was held at the home of Mrs. Amos Mendenhall, Thursday.

"Peace" was the subject of the program, led by Mrs. John Peterson. The Rev. Ralph Knoop presented ways in which peace could be obtained, in a short talk. The Bible bill and the malt bill before the general assembly were discussed favorably. Mrs. H. O. Collins and Mrs. Ralph Watkins, supervisor of music in Caesar Creek Twp., schools furnished music for the afternoon. A general social time was enjoyed following the meeting.

Messrs. Richard and Edward Sayre, Cincinnati, spent the weekend here visiting their parents, Mr. and Mrs. H. L. Sayre. Miss Marjorie DuBrul of Cincinnati motored up with them and was the guest of Miss Eileen Sayre.

Mrs. Irma Free, New Antioch, is confined to her home suffering with a complication of diseases.

The second "Bible Hour" for girls will be conducted at the home of Mrs. John G. Eavey, 129 Pleasant St., Tuesday evening, 7 o'clock. The subject to be discussed is "Know Thy Self." The committee invites all girls interested to bring their Bible and join in this helpful study.

Mr. and Mrs. George Morse, Columbus, were guests Sunday of Mr. and Mrs. J. C. Denham, Spring St.

Among members of the Cedar Cliff Chapter, D. A. R. of Cedarville, who left Monday morning to attend the state conference at Toledo, were: Mrs. C. H. Ervin, regent; Mrs. J. S. West, vice regent and Mrs. H. C. Aultman, alternate.

The regular meeting of the D. A. R. which was to have been held Saturday has been postponed until Wednesday, April 3 and will be held at the home of Mrs. R. O. Wead, N. Detroit St. This meeting will be in charge of those members who are attending the state conference in Toledo.

Mr. Clem Henrie, student at Ohio State University, is spending his spring vacation here with his mother, Mrs. C. L. Henrie, W. Market St.

The Women's Adult class of the First M. E. Church will hold a social in the church parlors Wednesday afternoon at 2 o'clock. A good program is being arranged and a good attendance desired.

Mr. William Nichols and family of Fort Wayne, Ind., spent the week end with Mr. Nichols' mother Mrs. Agnes Nichols, N. Galloway St.

The Women's Missionary Society of the First Presbyterian Church will hold its regular monthly meeting at the home of Mrs. Violet Gowdy, W. Main St., Friday afternoon at 2:30.

Mrs. James Carper, N. Galloway St., will entertain the members of Christ Episcopal Church choir at her home Monday evening.

Mr. and Mrs. Roger Fudge, Union Road, are announcing the birth of a daughter Sunday morning. The baby has not been named.

Mr. and Mrs. Arthur Wooley and Mr. and Mrs. Earl Wooley motored to St. Joseph, Mich., and spent the week end as the guests of Mr. and Mrs. Gordon Hanson.

Misses Elsie Grottendick and Alice Foley who have been motoring through Florida and other southern states for the past six weeks, returned home Saturday.

Miss Mary K. Sutton and mother, Mrs. J. A. Sutton, N. Detroit St., spent the week end in Cincinnati, where they attended George White's Scandals, Saturday evening.

Mr. and Mrs. Richard McClelland, W. Third St., entertained the members of the Forest Avenue Presbyterian Church choir quartet, at their home Sunday.

## INTERNATIONAL PAPER CO.

New York, March 13th, 1929. The Board of Directors have declared a regular quarterly dividend of one and three-quarters per cent (1 3/4%) on the Cumulative 7% Preferred Stock of this Company, and a regular quarterly dividend of one and one-half per cent (1 1/2%) on the Cumulative 6% Preferred Stock of this Company, for the current quarter, payable April 15th, 1929, to holders of record at the close of business, March 25th, 1929.

Checks to be mailed. Transfer books will not close. OWEN SHEPHERD, Vice-President and Treasurer. —Adv.

## FENNSY TRANSFERS HARPER KEPLER TO MICHIGAN BRANCH

Position of material supervisor at the Xenia yards of the Pennsylvania Railroad has been abolished with the transfer of W. H. Kepler, N. Detroit St., to a branch line of the Pennsylvania at Grand Rapids, Mich. Kepler left Sunday to take up his new duties.

Kepler replaces Frank Murray, Grand Rapids, Mich., who has been transferred to Cincinnati as material supervisor for the Cincinnati Division, the office having been moved from Xenia to that city.

Kepler will have a similar position at Grand Rapids on the old Grand Rapids and Indiana line, which was absorbed by the Pennsylvania lines.

He was employed at the Xenia yards for twenty-two years, formerly as storekeeper, as the position was originally known. The name was changed to material supervisor four or five years ago when a division storehouse was abandoned here. Since that time he had charge of purchasing supplies for the division.

No other employees are affected by the removal of the office to Cincinnati, it is announced.

## COOPER APPEAL TO BE HEARD TUESDAY

Appeal of Gilbert Cooper, 49, from a first degree murder conviction and life sentence in connection with the slaying of Caleb Hitchcock, near Cedarville, last November 24, will be considered by the Court of Appeals, Second District, when it convenes in Common Pleas Court Tuesday morning.

Thirteen other cases, including appeals from four liquor convictions, are also docketed for consideration by the appellate court.

## GETS FELLOWSHIPS

COLUMBUS, O., March 25.—Dr. Edward Mack, Jr., and Dr. George Remington Havens of Ohio State University, have received word that they have been appointed to John Simon Guggenheim Memorial fellowships, for one year's study abroad.

## DEATH CLAIMS MRS. JESSIE A. STUTSON

## BIBLE THOUGHT FOR TODAY

A NECESSARY PETITION—Turn thou us unto thee, O Lord, and we shall be turned; renew our days as of old.—Lamentations 5:21.

## MONEY IN CORN STALKS

The progress of industry, following on the heels of science, in turning corn stalks into money is indicated in a report on the Commercial Utilization of Certain Agricultural Wastes and By-Products compiled by the Agricultural Department of the Chamber of Commerce of the United States.

Science has shown that a wide variety of useful products can be obtained from corn stalks, some of which are: cellulose, cellulose nitrate and acetate, furfural, gun cotton, papier mache, pulp board, pyroxylin, viscose, xylan, diabetical food, oxalic acid, and paper.

Business is now experimenting to determine whether any of these products can be made economically. Some of the questions it faces are:

Are corn stalks more valuable to the farmer as plant food than as raw material to be sold to factories?

Can a sufficient supply of corn stalks be assured for the maintenance of a large manufacturing plant?

Will the cost of gathering stalks be so great that they cannot compete with other more available material?

"As nearly as can be determined," the report states, "corn stalk utilization projects are still in the experimental stage. So far, no one familiar with the situation is willing to venture an opinion as to what the outcome may be. It is reported that capital to the extent of more than several million dollars now is backing the trials with the intention of fully exploring the possibilities and limitations in this field."

## POWER AND PREPAREDNESS

Brig.-Gen. George Van Horn Moseley pretty successfully demonstrated the American idea of power and preparedness when the Mexican rebels captured Juarez. He crossed into Mexico at Juarez, in an army car, brought considerable order out of the noisy chaos to the benefit of his own people in El Paso and to the great service of the Mexican fighters. He did this without firing a shot. That he saved many Mexican lives is probable.

It was up to General Moseley to act. One American child had been wounded and another slain by Mexican bullets from across the river. The people of El Paso would not tolerate such a situation any more than the people of any other American city if they could help it. They had no theories, they wanted action. So General Moseley brought the power that was his to command to bear. When he spoke he got attention.

If there had been no efficient troops and no General Moseley, of good practical sense, but instead, some pacifistic person in thin whiskers had gone over the international bridge with a pocket handkerchief on the end of a lath, the outcome would be different.

Assuming that they are sophisticated, are the members of the younger generation sure they know all they think they know?

Although Mr. Hoover spent two months recently visiting the South Americans, many of the women folks complain their husbands won't take an evening to call on the neighbors.

It's a great day for electricity. People seem to want everything charged.

The college students at least show business ability by their success in getting money out of father.

Your BROADWAY  
By Walter Winchell And Mine

NEW YORK—They are waiting the one about the clever hostess who was fed up with people who crashed her parties. One hostess observed a fellow, known for his gate crashing, at her affair, and she used great tact to tell him that he was a "wast."

She approached the intruder and said: "Waiter, tell the waiter that there is an uninvited man present, and instruct him to have the person thrown out."

A LA O. HENRY  
The same McGuire relates this true story, which he asserts happened to him. It was in Atlantic City, several seasons ago. He frequented a speakeasy there, which featured a roulette wheel. A panhandler in the joint touched him for a dollar.

"Thanks," said the panhandler. "When this goes, I go, because I can't ask for another and I can't make one."

Thus declaring himself, the hum sat at a corner table, dejected. A woman rushed over to him and excitedly said: "Give me a dollar, will you, stranger? I feel lucky!"

He turned the borrowed dollar over to her.

She played No. 12 and won! Gathering up the winning \$35 and the one she borrowed, she brought the coin to the bum's table.

"I told you I felt lucky, stranger!" she cried. "Come on, I'll split it with you."

"I won't do anything of the kind!" he thundered. "I never

The Way  
of the  
World

BY GROVE PATTERSON

Amiel, famous for his journal, said: "He who ceases to grow greater becomes smaller; the stationary condition is the beginning of the end."

To rest up and take it easy is well enough for a limited period. People who decide they have done enough or got enough and make up their mind to rest and take it easy permanently, have done much worse than they think. They haven't adopted a settled and stationary condition. They have started back. The garden of the mind can't be let alone and remain beautiful. It has to be cultivated.

## SOUND CONSTRUCTION

A building with a beautiful front, but lacking in sound construction, top, bottom and rear, and faulty in foundation, will soon be found out by the tenants. It is a fake and a false pretension. An automobile that is all paint and no performance will soon be found out by the driver. Material things that are false don't "get by" very long. How is it that people who are all front and have no foundation, either in intellectual equipment or character, expect to go far without being found out? A good front is an asset for any man, but it can't last and it isn't even worth having if there is no sound construction behind it.

## TO EMPLOYEES.

If your employer is your friend he will not seek to keep you in your job to suit his convenience. He will be ever ready to help you get another job, if it appears to offer a better opportunity for you to get further to "have life and life more abundantly."

## TRICKY WRITING

Said John Burroughs: "One fault I find with our younger and more promising school of novelists is that their aim is too literary; we feel they are striving mainly for artistic effects. Do we feel this at all in Scott, Dickens, Hawthorne or Tolstoy? These men are not thinking about art but about life—how to produce life."

Something like the thing Burroughs had in mind must have occurred to many in reading occasional examples of modern advertising. There seems to be an attempt on the part of the writer to produce a striking effect of words. He tries to do tricky things with language. He seeks to register with a phrase instead of trying simply and naturally to tell the reader about his goods.

Are we not more impressed by advertising which is simple and direct and obviously truthful than we are by tricky phrases?

Who's Who

EARLY RETIREMENT OF NATIONAL BANK NOTES OPPOSED

By ANDREW MELLON

Secretary of the Treasury, Andrew William Mellon was born at Pittsburgh, Pa., March 24, 1855. He was educated at the Western University of Pennsylvania (now University of Pittsburgh). He was president of the Mellon National Bank at Pittsburgh, retiring in 1921 to accept the office of secretary of the treasury which he has since held. He is a director of offices of various financial and industrial corporations and has also been engaged in development of coal, coke and iron enterprises. He is chairman of several federal boards.

The department of the treasury, in the absence of legislation by congress to other effect, is prepared to continue the use of national bank notes as such and will issue new bonds to replace the consols of 1930, now used to secure national bank circulation. In my annual report for the fiscal year 1922, submitted to congress last December, referring to the question of whether the national bank notes now in circulation should be retired, I said as follows:

In all probability a conclusion as to the possible retirement of the national bank circulation, through exercise of the call privilege attaching to the 2 per cent consols which arises after April 1, 1930, will be reached before the department can issue national bank notes in the reduced size. The Federal Reserve act originally contemplated the retirement of the national bank circulation. The problem was discussed fully in the annual report for 1923. Considerable time having elapsed it is felt advisable to submit the matter to congress for decision at the present session.

In the event national bank notes are continued indefinitely as a part of the money circulation of the United States, the treasury will be prepared to apply the new designs to such notes and to make them available in the reduced size within a reasonable time after the issue of other kinds of currency in the reduced size.

The question has received the thorough study and consideration of this department, and I have concluded that it would be inadvisable to submit to congress, at this session, a program looking to early retirement of our national bank circulation. Accordingly, when the new size paper currency is issued, on or about July 1, 1923, the treasury department will be prepared shortly thereafter to make available national bank notes in reduced size.

Back in the early 1920's, a joint congressional committee was appointed, to plan a reorganization of the government departments, and Walter Brown was its chairman. It probably was a very educational investigation for Mr. Brown—though the departments never were reorganized.

Accordingly, when the new size paper currency is issued, on or about July 1, 1923, the treasury department will be prepared shortly thereafter to make available national bank notes in reduced size.

## OUT OF SIGHT, OUT OF MIND!

## How to Achieve Beauty

BY MME. HELENA RUBINSTEIN

The bridal boudoir is a charming, intimate place, so intimate that one hesitates to encroach upon its privacy, even to arrange the properties which will contribute to its charm.

Still sentiment must not be allowed to interfere with the practical measures which insure its own proper background. And for this reason we should consider the arrangements of the bridal boudoir.

Whether it be temporarily installed in a room, on a train or boat, or in the suite of a hotel, or in a private house taken over for the honeymoon occasion, it has certain unvarying appointments.

These are for the most part the personal toilette accessories of the bride. Although the groom has his own important masculine accessories, increasing in number and complexity in these days of modern fastidiousness, shaving essentials, face lotions, talcum, and very often a cream or sunburn ointment, find their place on the man's dressing table.

The bride, usually, however, has the more alluring array of cosmetic preparations. Upon her arrival in the boudoir she takes them out, as she unpacks, and arranges them upon her dressing table, a mysterious, intriguing little row of jars and bottles, daintily feminine.

She awaits her husband's reactions to them. What will he say to this strange assortment of creams and preparations from which she takes a secret magic to preserve and enhance her lovely skin? Will he be surprised or annoyed at its size and extravagance? Perhaps he had supposed her complexion to be as beautiful, naturally, as the petals of a rose, or a gardenia, or whatever flower he is accustomed to compare it to in his sentimental moments, without realizing that skin, unlike the short-lived flower petals, must be preserved and protected for future beauty.

At any rate, she cares little, for she knows that these things are so and that he had better become used to them at once—flowers do wither and fade, but a woman's skin does not when it has proper care.

If the bridegroom is a wise person—as he undoubtedly is—he will probably be both amused and interested in the strange process of his wife's beauty treatment, just as he is proud of the loveliness in which they have their share.

The row of jars and bottles on her table will delight him. He will pick them up, perplexedly, and read the ornamental and instructive labels. He probably will find a cleansing cream, a skin food, a skin stimulant, a nourishing cream, skin toning lotion, complexion powder, cream rouge, eye shadow. Perhaps there will be also a bottle of the fashionable gypsy tan cosmetic.

And, nine times out of ten, before the honeymoon is over, he will have sampled his bride's assortment of beauty preparations, especially if it contains a jar of some lotion or cream especially prepared to guard the skin against sun or wind, an excellent precaution for them both to take before riding, golfing, tennis, or mooring or walking, or any other outdoor activity of the honeymoon.

For dinner it can take the place of a starchy vegetable, as corn dodgers or corn pones, or used as a main dish. As such it is usually combined with foods high in fat or protein, such as meat, fish or cheese, and served as a loaf, croquettes, scalloped dishes etc. As a dessert the baked Indian pudding is delicious served with cream. Then there are the corn meal cookies and cakes.

If corn meal is used to make up a large portion of the diet, milk, eggs and green vegetables should be used with it to make up the deficiency in minerals and the so-called "vitaminues."

Nuts contain the same flesh-building material as meat, and can well take the place of meat at an occasional meal.

They should be served either raw or cooked as part of the meal, not nibbled between meals. Peanuts are rich in protein and fat, and can be made into a delicious loaf. Other nuts are equally good for this purpose, and when served with tomato sauce can be used as the main dish for dinner. A nut and cheese roast, cutlets and croquettes, are other favorite dinner dishes. Chestnuts are more digestible when cooked and can be made into a savory soup.

Nuts are added to candies and cakes as a source of fat, and nut muffins with a cup of tea, cocoa, or coffee is a satisfying lunch. The nuts that are rich in fat are the pecan, almond, hickory and walnut.

eign, presently will become merely incidental to the aviation companies' passenger and package carrying business—just as it has been only incidental to the railroads hitherto.

"Aviation," continued the postmaster general, "ought to disport and delivery, by all the way from one-half, on comparatively short distances, to two-thirds, on long ones."

"One step which will greatly facilitate matters will be the cutting down of delay in handling between down-town postoffices and remote landing fields. This we shall accomplish by roofing over railroad yards as near as possible to the centers of our cities."

"Then we shall have something comparable to the swift loading and discharge of mail sacks by fast freight trains."

All of which sounds to me like an extremely well-thought-out program for a postmaster general only a few weeks at the head of his department.

He appears as natural, in his position, as Harry S. New did at the end of eight years of it.

Please note also that he is a small boat sailor—a yachtsman. He can take over the navy portfolio if he has to. I venture the surmise that it would not embarrass him much. He seems versatile.

On the other hand, the husband should take enough interest in the home to buy what household utensils are needed to make the work lighter, just as he would buy office supplies to lighten the labors of his office force. And also do what he can to make it an attractive, pleasant place in which to live.

"DEAR VIRGINIA LEE: Have been married now over six years and live on a farm. When I came here the place was in terrible condition, which has been improved a little, mostly through my efforts. My husband is good in many ways, but he never offers any suggestions to make our place more livable and doesn't care how it looks. He is only interested in the cattle, stock and around the barn. He has a new barn and it is up-to-date, but I can't get him interested in having grass, fences, repairing, or anything around the house. The

## Diet and Health

BY LILLIAN PETERS, M.D. AUTHOR OF "DIET AND HEALTH" AND "DIET FOR CHILDREN"

A Loss of 120 Pounds.

"Dear Doctor: Thirteen months ago I wrote you for your pamphlet on reducing. At that time I weighed 250 pounds. I am 41 years old, 5 feet 7 inches tall, and large framed. I had gained 230, a loss of 120 pounds in 13 months. I sure worked hard to get rid of that. I did the Tummy Ten and am continuing them, and take other exercise three times a day besides doing my own washing, cooking and housework for a family of nine. I have been able to hoe and pick cotton this last year, something I had not been able to do in years. I do everything now that I can to help get rid of this fat. And I feel so much better!"

"I went hungry many times, but I didn't feel any worse with an empty stomach than I did stuffed. I did not go back to maintenance diet except for a day or so at a time occasionally, and always felt worse when I did so. I had a spell of fever when I was a child of 12, and have been gaining ever since that time. I had no idea I could reduce so easily, for I thought it ran in the family; my father and mother both weighed over 200 pounds; there were 11 of us children, and seven of us were overweight."

"I find I get along best if I take 400 calories for breakfast, 700 for dinner, and one glass of buttermilk for supper. I feel better now than I did when I was 20 years of age. I had been suffering from rheumatism for years and hadn't been able to close my right hand for some time, but all that is gone now. I will never be able to thank you enough. I mean to reduce to 150."

"MRS. D."

Your letter will put to shame those who have 10 to 50 pounds to lose and cannot seem to get started. Mrs. D. You certainly deserve a niche in our hall of fame. With the exception of three others we have heard from you have lost the most.

Your letter will also help to dissipate the myth of inherited fat and the glandular cause of obesity. Your glands, probably weren't functioning, but this dysfunction was caused by the over-

weight and wrong diet.

It used to be considered advisable after a loss of 40 to 50 pounds, to stop for a month and go back to the maintenance diet (one upon which the weight remains stationary), but there is apparently no need of doing this if care is taken to get a well-balanced diet. You have evidently done this.

One hundred and twenty pounds in 13 months is at the rate of little more than two pounds a week, but where there is so much to be lost, this little larger weekly loss can be allowed.

It is good to know you have lost your rheumatism, too, Mrs. D. There are many disorders or deficiencies due to the wrong diet (and the diet upon which one gains so much overweight is a wrong diet). And they disappear if not too far advanced—when the right diet is taken. With the loss of the excess weight the strain on the heart, caused by having to pump through the excess, and the strain on the other organs blanketed with fat are lost, and this can be credited with a large share of the good effects, especially where there has been such a great excess as yours.

You have considerable to lose yet, but I haven't any doubt that with the change you have displayed you will do it.

Will you write us, please, each time you lose, say, 25 pounds? We are all interested in you, and the report of your progress will be helpful. I know your letter is going to result in a great deal of good, and I thank you for writing.

The pamphlet which Mrs. D. followed can be obtained by following column rules.

Tomorrow: "Intestinal Flu."

For breakfast or as a luncheon dish nut scrapple is good. When the salad is the main dish its food value will be materially increased by the addition of nuts. Equal parts of cut nut meats and diced celery on a bed of lettuce with a French dressing makes an appetizing salad.

back yard is a mudhole. Doors are off some of the smaller buildings, but he'll only prop them up. What can I do?"

"K. L. C."

It certainly is discouraging, and you have my sympathy. Don't waste any more time worrying about it. Just accept your husband as he is and see what can be done to remedy things. Do you have any money of your own, from chickens, etc.? If you do, and you certainly should—use some of it to hire the things done that you want. If you don't have any money, try to get some. The same applies to your other problem. I think she is happier earning her own living while she can, but she should always feel that she will have some one to help if she needs it. Don't fuss about what your husband does for his family, though. That is his business and he should be helpful to you if you need money for yours.

"One Who Has Experience" writes at length to advise girls and boys to have no friendships without their parents' knowledge and approval.

ELAINE M.: It is sad, dear, that the attractive chaps who win love easily soon tire of the loved one and seek other worlds to conquer. And there seems no way a poor weak female can guard her heart against them. All she can do is to "let concealment, like a worm in the bud, feed on her damask cheek," as Hamlet has it. In other words, be brave and try to interest herself in those who are really more worth loving. And that is what you must do.

DISCOURAGED needs the advice of another girl who wrote recently and said she has learned by experience that one should be obedient to one's parents, and take them as confidantes, or one will regret it. She was just a year older than you, Discouraged.

## Peter's Adventures

BY FLORENCE SAITH VINCENT

"Say, is there any home in Mr. Muskrat's house?" called Peter, and scarcely had the words left his mouth when a weak voice answered.

"I am in Mr. Muskrat's house, but I am not at home. I wish I were," it said. "I am not sure how long I shall be here, either, probably all winter, unless Mr. Muskrat comes home and throws me out. However, what he does will make no difference to me. I shall not know it."

Now Peter could not believe his ears.

"How could Mr. Muskrat put you out of his house, and yet not know it?" cried the boy. "Don't tell me that the boy can sleep as soundly as all that. Who are you, anyhow, and what are you doing in there?"

"I'm doing nothing. I shall be frozen solid—only a few more minutes in this wretched hole, and I shall never again be able to move a muscle. I don't know how long I shall be here, either, but since nothing matters now, you might as well know that I am a Wild Duck. I dove into Mr. Muskrat's home to hide, but alas, now that I am in I cannot get out!"

Weaker and weaker grew the voice, and now with a last mournful "quack" it died away altogether.

"Here, here, don't give up hope, take that!" cried the boy. "Cheer up!"

"Maybe I can help you!"

Not a sound came from the boy's near the bank. Peter tried again. "Duck! Oh, Duck!" he called. "Tell me what is the matter with you, so I will know best hat to do. Are you wounded? Are you ill? Or are you starving? Perhaps if I brought you something to eat you would feel better."

"This time there came a faint whisper in reply.

"I am freezing, freezing! The ice has sealed me up alive."

"Then it is up to me to break it and to let you out. Courage, old chap! I shall have you free in no time."

The boy wasted no more time in talking, but set about his work or rescue in earnest.

Looking about for something to sharp the ice with Peter spied a sharp pointed stick lying upon the bank. With a shout of joy he ran to pick it up and had all he could do to carry it, for now that he was only as large as a bird his strength was not so great as when he was boy size. However, Peter managed to tug it down to the edge of the pool, and then how he did hammer that ice! It was much thicker than he thought, but he kept at it, giving the glassy surface blow after blow, and it wasn't long before the sharp point of the stick poked a hole through it.

Next: "A quick-witted Life."

## BIBLE THOUGHT FOR TODAY

A NECESSARY PETITION—Turn thou us unto thee, O Lord, and we shall be turned; renew our days as of old.—Lamentations 5:21.

## MONEY IN CORN STALKS

The progress of industry, following on the heels of science, in turning corn stalks into money is indicated in a report on the Commercial Utilization of Certain Agricultural Wastes and By-Products compiled by the Agricultural Department of the Chamber of Commerce of the United States.

Science has shown that a wide variety of useful products can be obtained from corn stalks, some of which are: cellulose, cellulose nitrate and acetate, furfural, gun cotton, papier mache, pulp board, pyroxylin, viscose, xylan, diabetic food, oxalic acid, and paper.

Business is now experimenting to determine whether any of these products can be made economically. Some of the questions it faces are:

Are corn stalks more valuable to the farmer as plant food than as raw material to be sold to factories?

Can a sufficient supply of corn stalks be assured for the maintenance of a large manufacturing plant?

Will the cost of gathering stalks be so great that they cannot compete with other more available material?

"As nearly as can be determined," the report states, "corn stalk utilization projects are still in the experimental stage. So far, no one familiar with the situation is willing to venture an opinion as to what the outcome may be. It is reported that capital to the extent of more than several million dollars now is backing the trials with the intention of fully exploring the possibilities and limitations in this field."

## POWER AND PREPAREDNESS

Brig-Gen. George Van Horn Moseley pretty successfully demonstrated the American idea of power and preparedness when the Mexican rebels captured Juarez. He crossed into Mexico at Juarez, in an army car, brought considerable order out of the noisy chaos to the benefit of his own people in El Paso and to the great service of the Mexican fighters. He did this without firing a shot. That he saved many Mexican lives is probable.

It was up to General Moseley to act. One American child had been wounded and another slain by Mexican bullets from across the river. The people of El Paso would not tolerate such a situation any more than the people of any other American city if they could help it. They had no theories, they wanted action. So General Moseley brought the power that was his to command to bear. When he spoke he got attention.

If there had been no efficient troops and no General Moseley, of good practical sense, but instead, some pacifistic person in thin whiskers had gone over the international bridge with a pocket handkerchief on the end of a lath, the outcome would be different.

Assuming that they are sophisticated, are the members of the younger generation sure they know all they think they know?

Although Mr. Hoover spent two months recently visiting the South Americans, many of the women folks complain their husbands won't take an evening to call on the neighbors.

It's a great day for electricity. People seem to want everything charged.

The college students at least show business ability by their success in getting money out of father.

## Your BROADWAY And Mine

By Walter Winchell

NEW YORK—They are awaking the one about the clever actresses who was fed up with people who crashed her parties. One hostess observed a fellow, known for his game crashing, at her affair, and she used great tact in letting him know that he wasn't wanted.

She approached the intruder and said: "Waiter, tell the butler that there is an uninvited man present, and instruct him to have the person thrown out."

A LA O. HENRY  
The same McGuire relates this true story, which he asserted happened to him. It was in Atlantic City, several seasons ago. He frequented a speakeasy where which featured a roulette wheel. A panhandler in the joint tumbled him for a dollar.

"Thanks," said the panhandler. "When this goes, I go, because I can't ask for another and I can't make one."

Thus declaring himself, the bum sat at a corner table, dejected. A woman rushed over to him and excitedly said: "Give me a dollar, will you, stranger? I feel lucky!"

He turned the borrowed dollar over to her.

She played No. 12 and won! Gathering up the winning \$36 and the one she borrowed, she brought the coin to the bum's table.

"I told you I felt lucky, stranger!" she cried. "Come on, I'll split it with you."

"I won't do anything of the kind!" he thundered. "I never

look money from a dame in my life, and I won't start now!" The next morning his little body was found on the beach.

## THE BIG HIGHBROW!

One of the elevator operators in a newspaper building (who is a gangster of duty) did the music critic a favor, and he was rewarded with a pair of Carnegie Hall seats to hear Heifetz. After the great violinist finished a number which drew salvos of handclapping the gorilla's wife turned and said:

"Nice, ain't it?"  
"Yeah," was the reply. "That guy sure scrapes a mean gut!"

## THIS TOWN OF OURS

Peter Finley Dunne, Jr., will succeed Jeff Hindsdale in the World's drama dept., 8 S. Van Dine did humor for Photoplay five yrs ago. Sar wigwils tell you it is good luck to dip your fingers in spilled champagne and smear the ears with it.

Dorothy Wegman, former Giegfeldian, now Mrs. Samson Raphaelson, is bringing up her baby scientifically, having the child but one hr daily to do with it as she pleases. Hat check attendants have no pockets. A real Austrian prince is being schooled for a \$50 per wk manager's job in the Paramount scenario. Add smiles: As heart-breaking to actors as the orchestra at a benefit performance.

John O'Hara has succeeded Philip Schuyler on Editor and Publisher.

## The Way of the World

BY GROVE PATTERSON

### GROWING

Amiel, famous for his journal, said: "He who ceases to grow greater becomes smaller; the stationary condition is the beginning of the end."

To rest up and take it easy is well enough for a limited period. People who decide they have done enough or got enough and make up their mind to rest and take it easy permanently have done much worse than they think. They haven't adopted a settled and stationary condition. They have started back. The garden of the mind can't be let alone and remain beautiful. It has to be cultivated.

### SOUND CONSTRUCTION

A building with a beautiful front, but lacking in sound construction, top, bottom and rear, and faulty in foundation, will soon be found out by the tenants. It is a fake and a false pretension. An automobile that is all paint and no performance will be found out by the driver. Material things that are false don't "get by" very long. How is it that people who are all front and have no foundation, either in intellectual equipment or character, expect to go far without being found out? A good front is an asset for any man, but it can't last and it isn't even worth having if there is no sound construction behind it.

### TO EMPLOYEES:

If your employer is your friend he will not seek to keep you in your job to suit his convenience. He will be ever ready to help you get another job, if it appears to offer a better opportunity for you to get further to "have life and life more abundantly."

### TRICKY WRITING

Said John Burroughs: "One fault I find with our younger and more promising school of novelists is that their aim is too literary; we feel they are striving mainly for artistic effects. We feel this at all in Scott, Dickens, Hawthorne or Tolstoy? These men are not thinking about art but about life—how to produce life."

Something like the thing Burroughs had in mind must be allowed to many in reading occasional examples of modern advertising. There seems to be an attempt on the part of the writer to produce a striking effect of words. He tries to do tricky things with language. He seeks to register with a phrase instead of trying simply and naturally to tell the reader about his goods.

Are we not more impressed by advertising which is simple and direct and obviously truthful than we are by tricky phrases?

## Who's Who and Timely Views

### EARLY RETIREMENT OF NATIONAL BANK NOTES OPPOSED

By ANDREW MELLON

Secretary of the Treasury. (Andrew William Mellon was born at Pittsburgh, Pa., March 24, 1855. He was educated at the Western University of Pennsylvania (now University of Pittsburgh). He was president of the Mellon National Bank at Pittsburgh, retiring in 1921 to accept the office of secretary of the treasury which he has since held. He is a director or officer of various financial and industrial corporations and has also been engaged in development of coal, coke and iron enterprises. He is chairman of several federal boards.)

The department of the treasury, in the absence of legislation by congress to other effect, is prepared to continue the use of national bank notes as such and will issue new bonds to replace the consols of 1930, now used to finance national bank circulation.

In my annual report for the fiscal year 1928, submitted to congress last December, referring to the question of whether the national bank notes now in circulation should be retired, I said as follows:

In all probability a conclusion as to the possible retirement of the national bank circulation, through exercise of the call privilege attaching to the 2 per cent consols which arises after April 1, 1930, will be reached before the department can issue national bank notes in the reduced size.

The Federal Reserve act originally contemplated the retirement of the national bank circulation in the annual report for 1924. Considerable time having elapsed it is felt advisable to submit the matter to congress for decision at the present session.

In the event national bank notes are continued indefinitely as a part of the money circulation of the United States, the treasury will be prepared to apply the new designs to such notes and to make them available in the reduced size within a reasonable time after the issue of other kinds of currency in the reduced size.

The question has received the thorough study and consideration of this department and I have concluded that it would be inadvisable to submit to congress, at its next session, a program looking to early retirement of our national bank circulation. Accordingly,

## OUT OF SIGHT, OUT OF MIND!

## How to Achieve Beauty

BY NINE HELENA RUBINSTEIN

The bridal boudoir is a charming, intimate place, so intimate that one hesitates to encroach upon its privacy, even to arrange the properties which will contribute to its charm.

Still sentiment must not be allowed to interfere with the practical measures which insure its own proper background. And for this reason we should consider the arrangements of the bridal boudoir.

Whether it be temporarily installed in a room, on a train or boat, or in the suite of a hotel, or in a private house, taken over for the honeymoon occasion, it has certain unvarying appointments.

These are for the most part the personal toilette accessories of the bride. Although the groom has his own important masculine accessories, increasing in number and complexity in these days of modern fastidiousness. Shaving essentials, face lotions, talcum, and very often a cream or sunburn ointment, find their place on the man's dressing table.

The bride, usually, however, has the more alluring array of cosmetic preparations. Upon her arrival in the boudoir she takes them out, as she unpacks, and arranges them upon her dressing table, a mysterious, intriguing little row of jars and bottles, dainty, feminine.

She awaits her husband's reactions to them. What will he say to this strange assortment of creams and preparations from which she takes a secret magic to preserve and enhance her lovely skin? Will he be surprised or annoyed at its size and extravagance? Perhaps he had supposed

## Behind the Scenes in Washington

By CHARLES P. STEWART

WASHINGTON.—For likability at first sight, Postmaster General Walter F. Brown, of Toledo, O., has few equals and no superiors among cabinet members.

Another thing—The new postmaster general already discusses his department like a veteran, at a time when all the other appointees to cabinet posts are begging to be excused from saying anything until they have been a good deal longer in office.

Anyway, when he made the appointment, Secretary Hoover expressed his opinion that Mr. Brown had a "greater knowledge of the federal machinery and its functions than any other man in the United States."

I am prepared to believe it, from the ease with which he fits, right from the jump, into the complicated duties of the postmaster generalship.

Back in the early 1920's, a joint congressional committee was appointed to plan a reorganization of the government departments and Walter Brown was its chairman. It probably was a very educational investigation for Mr. Brown—though the departments never were reorganized.

Accordingly, when the new size paper currency is issued, on or about July 1, 1929, the treasury department will be prepared shortly thereafter to make available national bank notes in reduced size.

eign, presently will become merely incidental to the aviation companies' passenger and package carrying business—just as it has been only incidental to the railroads hitherto.

"Aviation," continued the postmaster general, "ought to shorten the time, between dispatch and delivery, by all the way from one-half, on comparatively short distances, to two-thirds, on long ones."

"One step which will greatly facilitate matters will be the cutting down of delay in handling between down-town postoffices and remote landing fields. This we shall accomplish by roofing over railroad yards as near as possible to the centers of our cities."

Then we shall have something comparable to the swift loading and discharge of mail sacks by fast surface trains."

All of which sounds to me like an extremely well-thought-out program for a postmaster general only a few weeks at the head of his department.

He appears as natural, in his position, as Harry S. New did at the end of eight years of it.

Please note also that he is a small boat sailor—a yachtsman. He can take over the navy portfolio if he has to. I venture the surmise that it would not embarrass him much. He seems versatile.

## Household Hints

By MRS. MARY MORTON

### Suggestions Use Corn Meal

Corn meal is a nutritious food that has about the same food value as wheat flour. It is especially a good cold weather food and can be served in such a variety of ways that it can be included in any of the tariff daily meals.

It is well known as a breakfast cereal and if sliced and cold and sautéed it can be served in place of buttered toast. For luncheon corn bread with milk gravy is satisfying. Then there is the Boston brown bread, that goes so well with baked beans and corn muffins.

For dinner it can take the place of a starchy vegetable, as corn dodgers or corn pones, or used as a main dish. As such it is usually combined with foods high in fat or protein, such as meat, fish or cheese, and served as a loaf, croquette, scalloped dish, etc. As a dessert the baked Indian pudding is delicious served with cream. Then there are the corn meal cookies and cakes.

If corn meal is used to make up a large portion of the diet, milk, eggs and green vegetables should be used with it to make up the deficiency in minerals and the so-called "vitamines."

Nuts contain the same flesh-building material as meat, and can well take the place of meat at an occasional meal.

They should be served either raw or cooked as part of the meal, not nibbled between meals. Peanuts are rich in protein and fat, and can be made into a delicious loaf. Other nuts are equally good for this purpose, and when served with tomato sauce can be used as the main dish for dinner. A nut and cheese roast, cutlets and croquettes, are other favorite dinner dishes. Chestnuts are more digestible when cooked and can be made into a savory soup.

Nuts are added to candies and cakes as a source of fat, and nut muffins with a cup of tea, cocoa, or coffee is a satisfying lunch. The nuts that are rich in fat are the pecan, almond, hickory and walnut.

I have been able to hoe and pick cotton this last year, something I had not been able to do in years. I do everything now that I can to help get rid of this fat. And I feel so much better!"

"I went hungry many times, but I didn't feel any worse with an empty stomach than I did stuffed. I did not go back to maintaining 250 pounds for a day or so at a time occasionally, and always felt worse when I did so."

"I had a spell of fever when I was a child of 12, and have been gaining ever since that time. I had no idea I could reduce so easily, for I thought it ran in the family: my father and mother both weighed over 200 pounds; there were 11 of us children, and seven of us were overweight."

"I find I get along best if I take 400 calories for breakfast, 700 for dinner, and one glass of buttermilk for supper. I feel better now than I did when I was 20 years of age. I had been suffering from rheumatism for years and hadn't been able to close my right hand for some time, but all that is gone now. I will never be able to thank you enough. I mean to reduce to 150."

"MRS. D."

Your letter will put to shame those who have 10 to 50 pounds to lose and cannot seem to get started. Mrs. D. You certainly deserve a niche in our hall of fame. With the exception of three others we have heard from you have lost the most.

Your letter will also help to dissipate the myth of inherited fat and the glandular cause of obesity. Your glands probably weren't functioning, but this dysfunction was caused by the over-

weight and wrong diet. It used to be considered advisable after a loss of 40 to 50 pounds, to stop for a month and go back to the maintenance diet (one upon which the weight remains stationary), but there is apparently no need of doing this if care is taken to get a well-balanced diet. You have evidently done this.

One hundred and twenty pounds in 13 months is at the rate of a little more than two pounds a week, but where there is so much to be lost, this little larger weekly loss can be allowed. It is good to know you have lost your rheumatism, too, Mrs. D. There are many disorders brought about by the toxemia or deficiencies due to the wrong diet (and the diet upon which one gains so much overweight is a wrong diet). And they disappear—if not too far advanced—when the right diet is taken. With the loss of the excess weight the strain on the heart caused by having to pump through the excess, and the strain on the other organs blanketed with fat are lost, and this can be credited with a large share of the good of facts, especially where there has been such a great excess as yours.

You have considerable to lose yet, but I haven't any doubt that with the character you have displayed you will do it.

Will you write us, please, each time you lose, say, 25 pounds? We are all interested in you, and the report of your progress will be helpful. I know your letter is going to result in a great deal of good, and I thank you for writing.

The pamphlet which Mrs. D. followed can be obtained by following column rules.

Tomorrow: "Intestinal Flu."

For breakfast or as a luncheon dish, scramble is good. When the salad is the main dish its food value will be materially increased by the addition of nuts. Equal parts of cut nut meats and diced celery on a bed of lettuce with a French dressing makes an appetizing salad.

back yard is a mudhole. Doors are off some of the smaller buildings, but he'll only prop them up. What can I do?"

K. L. C.

It certainly is discouraging, and you have my sympathy. Don't waste any more time worrying about it. Just accept your husband as he is and see what can be done to remedy things. Do you have any money of your own, from clemens, etc? If you do, and you certainly should—use some of it to hire the things done that you want. If you don't have any money, try to get some. The same applies to your other problem. I think she is happier earning her own living while she can, but she should always feel that she will have some one to help if she needs it. Don't fuss about what your husband does for his family, though. That is his business and he should be helpful to you if you need money for yours.

"One Who Has Experience" writes at length to advise girls and boys to have no friendships without their parents' knowledge and approval.

ELAINE M.: It is sad, dear, that the attractive chaps who win love easily soon tire of the loved one and seek other worlds to conquer. And there seems to be a poor weak female who can guard her heart against them. All she can do is to "let concealment, like a worm" fit the bud, feed on her damask cheek," as Hamlet has it. In other words, be brave and try to interest herself in those who are really more worth loving. And that is what you must do.

DISCOURAGED should heed the advice of another girl who wrote recently and said she has learned by experience that one should be obedient to one's parents, and take them as confidantes, or one will regret it. She was just a year older than you, Discouraged.

## Peter's Adventures

By MRS. FLORENCE VINCENT

"CALL FOR HELP  
"Say, is there any one home in Mr. Muskrat's house?" called Peter, and scarcely had the words left his mouth when a weak voice answered:

"I am in Mr. Muskrat's house, but I am not at home. I wish I were," it said. "I am not sure how long I shall be here, either, probably all winter, unless Mr. Muskrat comes home and throws me out. However, what he does will make no difference to me. I shall not know it."

Now Peter could not believe his ears.

"How could Mr. Muskrat put you out of his house, and you not know it?" cried the boy. "Don't tell me that you can sleep as soundly as all that. Who are you, anyhow, and what are you doing in there?"

"I'm doing nothing. I shall be frozen solid—only a few more minutes in this wretched hole, and I shall never again be able to move a muscle. I don't know that it will do any good to tell you, but since nothing matters now you might as well know that am a Wild Duck. I dove into Mr. Muskrat's home to hide, but alas, now that I am in I cannot get out!"

Weaker and weaker grew the voice, and now with a last mournful "quack" it died away altogether.

"Here, here, don't give up hope," cried the boy. "Cheer up!"

Next: "A quick-witted Life."

By PERCY CROSBY

## RADIO GOOD FRIDAY SERVICES WILL BE HEARD BY XENIANS

The Ore Services at the Chapel of the Holy Spirit, Cincinnati, Good Friday afternoon from 12 until 3 o'clock, will be broadcast by Station WLW, Cincinnati, and will be heard by radio by worshippers at St. Brigid's Church here during those hours, it is announced by the Rev. David J. Powers, pastor.

This means of permitting members of the Xenia congregation to participate in the services at Cincinnati, was inaugurated by the Rev. Father Powers last year. Richard Crane, Cincinnati layman, will explain the services and Prof. J. Alfred Scheel, choirmaster and organist of the Fenwick Club has arranged a musical program which includes a half hour of chanting of the solemn Way of the Cross, a devotion commemorating the fourteen principal stages of Christ's journey to Calvary.

Short sermons on the Saviour's Seven Last Words will be given between the musical selections by the Rt. Charles E. Baden, of the Fenwick Club; the Rev. John Stein, chaplain of Good Shepherd Convent; the Rev. Francis Grusenmeyer, pastor of the Church of the Resurrection; the Rev. Timothy Healey, pastor of St. Edward's Church; the Rev. Jerome O'Regan, spiritual director and the Rev. Warren Hook, both of St. Gregory Seminary; the Rev. Edward Quinn, pastor of the Church of Our Lord Christ the King and the Very Rev. Mons. Frank Thill, J. C. D., national director of the Students' Mission Crusade.

Although St. Brigid's Church has arranged its own Good Friday program the church is co-operating with Protestant churches of the city in the union Good Friday observance at First Reformed Church where there will be a similar service during the crucifixion hours. Merchants will close their stores from 12 to 2 o'clock to permit attendance at the services.

At the union services the Rev. Carl O. Nybladh, the Rev. Russell Burkett, the Rev. W. H. Tifford, the Rev. L. A. Washburn, the Rev. S. L. Brill and the Rev. Joel R. Lunsford will deliver brief sermons between the numbers of an especially arranged musical program. The afternoon's services are divided into two parts, with the Rev. H. B. McElree presiding over the first part and the Rev. James P. Lytle as presiding chairman of the second part.

## STIVERS YIELDS TO MANDATE OF BOARD

COLUMBUS, O., March 25.—Dayton Stivers, state high school basketball champion, today reconciled himself to the mandate of the board of control of the state athletic association which banned a trip to Chicago to participate in the national tournament.

The board debated the question in a special meeting here Saturday night and decided by a vote of four to two, that it was quite impossible to permit the Daytonians to have anything to do with the Chicago meet and retain their standing in the association.

Setting an example to be followed in the future, the board declared ineligible in all sports all players on St. Xavier's High School basketball team, who participated in the national Catholic tournament at Chicago.

The Cincinnati team ignored the ruling by making the trip. The ineligibility shackles extend over a period of one year. The school can still produce a basketball team, however, and remain in the good graces of the association, as the law does not affect the institution.

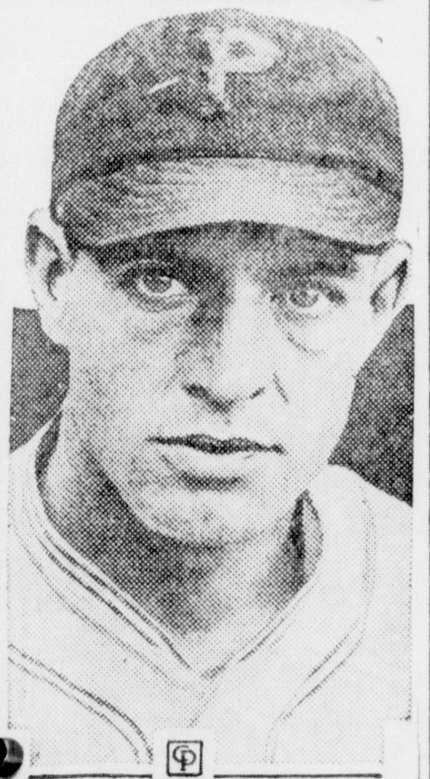

## Bowling

The Downtown Country Club bowling team, enjoying a one-game lead in the City League, has a chance to either strengthen its position or relinquish the leadership of the league entirely next week.

The league leaders meet the second-place Fuller Brothers while Browns oppose Hunt's Broom Makers in the double-header to be played next Friday night. League standings follow:

Team	Won	Lost	Pct.
D. T. C. Club	49	29	.628
Fuller Bros.	48	30	.615
Browns	31	47	.397
Broom Makers	28	50	.358

## Got 'Em Guessing

What's wrong with the arm of Glenn Wright, Brooklyn Robins' new shortstop, has kept folk guessing. He has been in Miami, Fla., undergoing treatment.

## Baseball Puzzlers

By CHARLEY BARRETT  
Big League Scout Writing for Central Press and The Gazette  
Frequently an umpire is too hasty in his rulings and by calling a play too soon gets himself into a very difficult situation. This has happened in the majors as well as in the bushes, although, of course, not nearly so often.

I remember a game that was played at Waterloo, Ia., where I was a spectator looking over a player who later became rather well known in the big leagues. The score was close all the way. In fact, it was as pretty a pitcher's battle as one would care to see. Wheeling into the ninth inning it became apparent that the team that could put over one run was going to win the decision.

In the first half the visiting team managed to get the first runner on via a base on balls. He was sacrificed to second and took third on a short passed ball.

With a weak hitter at the plate it was evident from the runner's actions on third that the squeeze play was on. I think everyone in the park knew the batter was going to bunt. It was just a question of whether or not he could drop the ball far enough away for the runner to score.

Sure enough he bunted a roller down the third base line that was foul by several feet as it slowly rolled toward third. The umpire shouted "foul" and the base runner, almost to the plate, started back to third.

As he did the ball hit an obstruction and changed its course to fair territory, rolling into the third baseman's hands. He snapped up the ball and tagged the surprised base runner.

When the umpire ruled him out a tremendous roar went up from the visiting team. They insisted the first shout of "foul" from the umpire protected the base runner of any liability of being retired. That umpire was placed in a very unfortunate position, all due to his premature calling.

## PERRINE WILL HEAD DRIVE FOR MEMBERS

Appointment of Eugene Perrine as chairman of a special membership committee to have charge of the membership campaign being conducted by Xenia Aerie, No. 1689, Fraternal Order of Eagles, in connection with the state-wide drive inaugurated by the Eagles March 17, is being announced.

Xenia Aerie has set its goal in the campaign as forty new members to be signed by July. President George Killen announces. Chairman Perrine will have working with him on the membership committee the following assistants: H. Soddors, E. A. Jeffries, John Ernst and Chame Holt.

The goal for the state is 25,000 new members. An elaborate radio broadcasting schedule has been worked out in connection with the campaign, utilizing all principal Ohio stations.

## FORMER GOVERNOR OF KANSAS IS DEAD

TOPEKA, Kansas, March 25.—Succumbing to complicated disorders, Walter Roscoe Stubbs, 70, twice governor of Kansas and prominent throughout the south-west as a ranchman, died here today.

Stubbs served two terms as governor of Kansas from 1909 to 1913 and played a major hand for many years in Kansas' government.

He was elevated to the governorship after service in the Kansas legislature, during which time he took an active part in the so-called "boss-busting" movement of his time.

## MAYOR'S COURT

SPEEDERS GIVE BONDS  
Four motorists, arrested over the weekend on speeding charges by Peter Shagin, motorcycle policeman, posted bonds for appearance before Mayor Karl R. Babb Monday.

They are: R. L. Sayre, charging with traveling fifty-five miles an hour on N. King St., \$10 bond; Paul Harner, forty-five miles an hour on N. Detroit St., \$5 bond; Frank Glase, forty miles an hour on N. Detroit St., \$5 bond; and Paul Jones, forty miles an hour on N. Detroit St., \$5 bond. Jones and Harner were racing, the officer said.

## SKIPPY—An Intruder

## CASH AND CARRY PYLE FORGETS BIG LOSS; OPTIMISTIC ABOUT NEW BUNION DERBY

By FRANK GETTY  
United Press Sports Editor

NEW YORK, March 25.—A bright gleam of hope dances in the pleasant, pale blue eye of Charlie Pyle today as this visionary among promoters envisions another of his interminable coast-to-coast marathon runs under way next week.

One would think that a man who had lost \$100,000 on a similar venture a year ago would know the shadow of foreboding, but foreboding and C. C. Pyle are strangers.

Already the eternal optimist can see his foot-sore troupe plodding along the highways towards the west, pushing painful and protesting feet past cheering throngs, while presidents of chambers of commerce wait with the keys of the city and certified checks for the promoter.

Nowhere along the route can Charlie Pyle foresee a single sherd.

His foresights suffer astigmatism likewise in the matter of process servers. It is a roseate future towards which he will send his runners away from New York next Sunday afternoon.

This year's race reverses the course of the original venture, with some tactical changes. The runners (Pyle says he believes 125 will start) will follow U. S. Highway No. 40 from New York to St. Louis; U. S. 66 from St. Louis to Chelsea, Oklahoma; U. S. 75 and 78 to Dallas, Tex.; and U. S. No. 1 to Los Angeles.

"With the entry fees of \$300 per man, the revenue from a vaudeville show which will travel with us, and from various other side-lines which I have in mind, I can't lose," Pyle said.

"As for the runners, not only is there prize money amounting to \$60,000, but the race affords them an opportunity to improve their health."

## TUESDAY WILL BE "ARMORY DAY" HERE; PROCLAMATION ISSUED

A proclamation designating Tuesday as "Armory Day" in Xenia and calling upon Xenians to make an appropriate display of flags in honor of Brig. Gen. Arthur W. Reynolds, adjutant general of Ohio, who will visit this city late Tuesday afternoon to inspect available sites for the construction of a National Guard armory here, was issued Monday by Mayor Karl R. Babb.

Citizens are asked by Mayor Babb to assist in the observance of "Armory Day" not only in displaying flags but to extend the courtesies and hospitality of the city to the distinguished visitor.

Adjutant-General Reynolds, accompanied by Lieut. Col. Wade C. Christy and Lieut. Col. Earl Potts, members of his staff, is expected to arrive in Xenia by motor about 5 p. m. However, it is hoped that he will be able to arrange for his arrival an hour earlier than that time in order that a special program being prepared in his honor may be carried out.

Providing he is able to come at 4 p. m., the party will be met at a Xenia delegation in autos. He will then be conducted on an inspection trip of various available armory sites in this city, after which he will be escorted to the O. S. and S. O. Home, where plans are being made for a dress parade and inspection of the cadet battalion.

At 6 o'clock he will address a joint dinner-meeting of the Kiwanis and Rotary Clubs on the second floor at the Elk's Club, talking on the subject, "The National Guard and Its Part in the National Defense."

Commissioned officers of Company L, 147th Infantry, Ohio National Guard, will be guests at the joint meeting, as will I. Friedman, president of the Xenia Retail Merchants' Association, and a representative each from the G. A. R., Spanish-American War Veterans and American Legion. Music will be supplied by a twelve-piece mixed orchestra from the O. S. and S. O. Home, furnished through the courtesy of Col. Charles V. Burton, superintendent of the institution.

In connection with the visit of the adjutant-general in Xenia, Captain O. H. Cornwell, commanding Co. L, local guard unit, is requesting each member of the company to assemble at the local armory at 3 p. m. Tuesday. Soldiers will report in uniform.

The armory will be open at noon for all those men who desire to come early and clean up uniforms and equipment. All members who report will be released as soon as possible after armory sites are inspected, it is announced.

## HAVE COLOR IN CHEEKS

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 20 years of study. Olive Tablets are a purely vegetable compound mixed with olive oil. Know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. Take nightly and note the pleasing results. Millions of boxes sold yearly. 15c, 50c, 60c. All Druggists.

A bill is now pending in the state legislature providing for an appropriation of \$50,000 for erection of an armory in Xenia and Adjutant-General Reynolds will inspect available sites here in order that he may make proper recommendations.

Following is the proclamation issued by Mayor Babb:

Whereas the authorities of the State of Ohio have under consideration the granting of an armory for the city of Xenia, Ohio, and

Whereas such an armory would greatly enhance the training and efficiency of the local unit of the Ohio National Guard, and

Whereas such an armory would provide a further asset to our community in affording a proper place for public gatherings, for meetings of educational value and for athletic contests, and

Whereas Brigadier General Arthur W. Reynolds, Adjutant General of Ohio, will visit our City on Tuesday, March 26, 1929, to view available sites for such an armory, in order that he may be in position to make proper recommendations relative thereto,

Now, therefore, I, Karl R. Babb, mayor of the city of Xenia, Ohio, do hereby designate Tuesday, March 26, 1929 as Armory Day in Xenia and call upon all loyal citizens to assist in the observance of Armory Day, to extend the courtesies and hospitality of the city to our distinguished visitor and his aides, and to make appropriate display of flags in his honor.

Given under my hand and seal this twenty-fifth day of March, 1929.

KARL R. BABE,  
Mayor of the City of Xenia, Ohio.

Big League Scout Writing for Central Press and The Gazette

Frequently an umpire is too hasty in his rulings and by calling a play too soon gets himself into a very difficult situation. This has happened in the majors as well as in the minors, although, of course, not nearly so often.

I remember a game that was played at Waterloo, Ia., where I was a spectator looking over a player who later became rather well known in the big leagues.

The score was close all the way. In fact, it was a pretty a pitcher's battle as one would care to see. Wheeling into the ninth inning it became apparent that the team that could put over one run was going to win the decision.

In the first half the visiting team managed to get the first runner on via a base on balls. He was sacrificed to second and took third on a short passed ball.

With a weak hitter at the plate it was evident from the runner's actions on third that the pitcher's play was on. I think everyone in the park knew the batter was going to bunt. It was just a question of whether or not he could drop the ball far enough away for the runner to score.

Sure enough he bunted a roller down the third base line that was fanned by several feet as it slowly rolled toward third. The umpire shouted "foul" and the base runner, almost to the plate, started back to third.

As he did the ball hit an obstruction and changed its course to fair territory, rolling into the third baseman's hands. He snapped up the ball and tagged the surprised base runner.

When the umpire ruled him out a tremendous roar went up from the visiting team. They insisted the first shout of "foul" from the umpire protected the base runner from any liability of being retired.

That umpire was placed in a very unfortunate position, all due to his premature calling.

## PERRINE WILL HEAD DRIVE FOR MEMBERS

Appointment of Eugene Perrine as chairman of a special membership committee to have charge of the membership campaign being conducted by Xenia Aerie, No. 1689, Fraternal Order of Eagles, in connection with the state-wide drive inaugurated by the Eagles March 17, is being announced.

Xenia Aerie has set its goal in the campaign as forty new members to be signed by July. President George Killen announced.

Chairman Perrine will have working with him on the membership committee the following assistants: H. Sodders, E. A. Jeffries, John Ernst and Chas. Holton.

The goal for the state is 25,000 new members. An elaborate radio broadcasting schedule has been worked out in connection with the campaign, utilizing all principal Ohio stations.

## FORMER GOVERNOR OF KANSAS IS DEAD

TOPEKA, Kansas, March 25.—Succumbing to complicated disorders, Walter Roscoe Stubbs, 70, twice governor of Kansas and prominent throughout the southwest as a ranchman, died here today.

Stubbs served two terms as governor of Kansas from 1909 to 1913 and played a major hand for many years in Kansas' government.

He was elevated to the governorship after service in the Kansas legislature, during which time he took an active part in the so-called "boss-busting" movement of his time.

## MAYOR'S COURT

SPEEDERS GIVE BONDS Four motorists, arrested over the week-end on speeding charges by Peter Shagin, motorcycle policeman, posted bonds for appearance before Mayor Karl R. Babb Monday.

They are: R. L. Sayre, charging with traveling fifty-five miles an hour on N. King St., \$10 bond; Paul Harner, forty-five miles an hour on N. Detroit St., \$5 bond; Frank Clase, forty miles an hour on N. Detroit St., \$5 bond; and Paul Jones, forty miles an hour on N. Detroit St., \$5 bond. Jones and Harner were racing, the officer said.

FRIDAY: Eagles.

## SKIPPY—An Intruder

## CASH AND CARRY PYLE FORGETS BIG LOSS; OPTIMISTIC ABOUT NEW BUNION DERBY

By FRANK GETTY

United Press Sports Editor

NEW YORK, March 25.—A

bright gleam of hope dances in the pleasant, pale blue eye of Charlie Pyle today as this visionary among promoters envisions another of his interminable coast-to-coast marathons runs under way next week.

One would think that a man who had lost \$100,000 on a similar venture a year ago would know the shadow of foreboding, but foreboding and C. C. Pyle are strangers.

Already the eternal optimist can see his foot-sore troupe plodding along the highways towards the west, pushing painful and protesting feet past cheering throngs, while presidents of chambers of commerce wait with the keys of the city and certified checks for the promoter.

Nowhere along the route can Charley Pyle foresee a single sh-

iff. His foresights suffer astigmatism likewise in the matter of process servers. It is a roseate future towards which he will send his runners away from New York next Sunday afternoon.

This year's race reverses the course of the original venture, with some tactical changes. The runners (Pyle says he believes 125 will start) will follow U. S. Highway No. 40 from New York to St. Louis; U. S. 66 from St. Louis to Chelsea, Oklahoma; U. S. 75 and 78 to Dallas, Tex.; and U. S. No. 1 to Los Angeles.

"With the entry fees of \$300 per man, the revenue from a vaudeville show which will travel with us, and from various other side-lines which I have in mind, I can't lose," Pyle said.

"As for the runners, not only is there prize money amounting to \$60,000, but the race affords them an opportunity to improve their health."

## TUESDAY WILL BE "ARMORY DAY" HERE; PROCLAMATION ISSUED

A proclamation designating Tuesday as "Armory Day" in Xenia and calling upon Xenians to make an appropriate display of flags in honor of Brig. Gen. Arthur W. Reynolds, adjutant general of Ohio, who will visit this city late Tuesday afternoon to inspect available sites for the construction of a National Guard armory here, was issued Monday by Mayor Karl R. Babb.

Citizens are asked by Mayor Babb to assist in the observance of "Armory Day" not only in displaying flags but to extend the courtesies and hospitality of the city to the distinguished visitor.

Adjutant-General Reynolds, accompanied by Lieut. Col. Wade C. Christy and Lieut. Col. Earl Portis, members of his staff, is expected to arrive in Xenia by motor about 5 p. m. However, it is hoped that he will be able to arrange for his arrival an hour earlier than that time in order that a special program being prepared in his honor may be carried out.

Providing he is able to come at 4 p. m., the party will be met by a Xenia delegation in autos. He will then be conducted on an inspection trip of various available armory sites in this city, after which he will be escorted to the O. S. and S. O. Home, where plans are being made for a dress parade and inspection of the cadet battalion.

At 6 o'clock he will address a joint dinner-meeting of the Kiwanis and Rotary Clubs on the second floor at the Elk's Club, talking on the subject, "The National Guard and Its Part in the National Defense."

Commissioned officers of Company L, 147th Infantry, Ohio National Guard, will be guests at the joint meeting, as will I. Friedman, president of the Xenia Retail Merchant's Association, and a representative each from the G. A. R., Spanish-American War Veterans and American Legion. Music will be supplied by a twelve-piece mixed orchestra from the O. S. and S. O. Home, furnished through the courtesy of Col. Charles V. Burton, superintendent of the institution.

In connection with the visit of the adjutant-general in Xenia, Captain O. H. Cornwell, commandant Co. I, local guard unit, is requesting each member of the company to assemble at the local armory at 3 p. m. Tuesday. Soldiers will report in uniform.

The armory will be open at noon for all those men who desire to come early and clean up uniforms and equipment. All members who report will be released as soon as possible after armory sites are inspected, it is announced.

## MARKETS

LIVE STOCK CHICAGO LIVESTOCK CHICAGO, March 25.—Hogs, receipts 65,000, including 25,000 delivered.

IT'S A WONDERFUL WAY TO RELIEVE UGLY ECZEMA In 20 years, soothing, invisible Zemo has seldom failed to relieve even the most stubborn cases of Eczema and itching skin. Also the way this remarkable antiseptic liquid quickly banishes pimples, itching rash and other skin irritations, will delight you. If you want a clear skin, never be without safe Zemo. All druggists—35c, 60c and \$1.00.

## PNEUMONIA

Call a physician. Then begin "emergency" treatment with VICKS VAPORUB Over 21 Million Jars Used Yearly

## HAVE COLOR IN CHEEKS

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 20 years of study. Olive Tablets are a purely vegetable compound mixed with olive oil. Know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. Take nightly and note the pleasing results. Millions of boxes sold yearly. 15c, 50c, 60c. All Druggists.

## Stivers Yields TO MANDATE OF BOARD

COLUMBUS, O., March 25.—Dayton Stivers, state high school basketball champions, today reconciled themselves to the mandate of the board of control of the state athletic association which banned a trip to Chicago to participate in the national tournament.

The board debated the question in a special meeting here Saturday night and decided by a vote of four to two, that it was quite impossible to permit the Daytonians to have anything to do with the Chicago meet and retain their standing in the association.

Setting an example to be followed in the future, the board declared ineligible in all sports all players on St. Xavier's High School cage team of Cincinnati, who participated in the national Catholic tournament at Chicago.

The Cincinnati team ignored the ruling by making the trip. The ineligibility shackles extend over a period of one year. The school can still produce a basketball team, however, and remain in the good graces of the association, as the law does not affect the institution.

## Bowling

The Downtown Country Club bowling team, enjoying a one-game lead in the City League, has a chance to either strengthen its position or relinquish the leadership of the league entirely next week.

The league leaders meet the second-place Fuller Brothers while Browns oppose Hunt's Broom Makers in the double-header to be played next Friday night. League standings follow:

Team	Won	Lost	Pct.
D. T. C. Club	49	29	.628
Fuller Bros.	48	30	.615
Browns	31	47	.397
Broom Makers	28	50	.358

## Got 'Em Guessing

What's wrong with the arm of Glenn Wright, Brooklyn Robins' new shortstop, has kept folk guessing. He has been in Miami, Fla., undergoing treatment.

## Baseball Puzzlers

By CHARLEY BARRETT

Big League Scout Writing for Central Press and The Gazette

Frequently an umpire is too hasty in his rulings and by calling a play too soon gets himself into a very difficult situation. This has happened in the majors as well as in the minors, although, of course, not nearly so often.

I remember a game that was played at Waterloo, Ia., where I was a spectator looking over a player who later became rather well known in the big leagues.

The score was close all the way. In fact, it was a pretty a pitcher's battle as one would care to see. Wheeling into the ninth inning it became apparent that the team that could put over one run was going to win the decision.

In the first half the visiting team managed to get the first runner on via a base on balls. He was sacrificed to second and took third on a short passed ball.

With a weak hitter at the plate it was evident from the runner's actions on third that the pitcher's play was on. I think everyone in the park knew the batter was going to bunt. It was just a question of whether or not he could drop the ball far enough away for the runner to score.

Sure enough he bunted a roller down the third base line that was fanned by several feet as it slowly rolled toward third. The umpire shouted "foul" and the base runner, almost to the plate, started back to third.

As he did the ball hit an obstruction and changed its course to fair territory, rolling into the third baseman's hands. He snapped up the ball and tagged the surprised base runner.

When the umpire ruled him out a tremendous roar went up from the visiting team. They insisted the first shout of "foul" from the umpire protected the base runner from any liability of being retired.

That umpire was placed in a very unfortunate position, all due to his premature calling.

## PERRINE WILL HEAD DRIVE FOR MEMBERS

Appointment of Eugene Perrine as chairman of a special membership committee to have charge of the membership campaign being conducted by Xenia Aerie, No. 1689, Fraternal Order of Eagles, in connection with the state-wide drive inaugurated by the Eagles March 17, is being announced.

Xenia Aerie has set its goal in the campaign as forty new members to be signed by July. President George Killen announced.

Chairman Perrine will have working with him on the membership committee the following assistants: H. Sodders, E. A. Jeffries, John Ernst and Chas. Holton.

The goal for the state is 25,000 new members. An elaborate radio broadcasting schedule has been worked out in connection with the campaign, utilizing all principal Ohio stations.

## MOTORIST CUT AS CAR LEAVES ROAD

Nineteen stitches were required to close lacerations about the face and head of James Frame, Columbus Pike, near Cedarville, sustained when he is reported to have lost control of his auto and the car ran off the Cedarville-Clifton Pike and into a ditch Sunday afternoon.

Frame visited Dr. M. I. Marsh, Cedarville physician, who sewed up the wounds. His injuries, however are said to be not serious.

Frame's car before it went into the ditch, is said to have collided with another machine, which was not damaged to any great extent and was driven on after the accident.

Sheriff Ohmer Tate investigated the accident.

## CHILDREN SAVE SCHOOL

GOLDEN DALE, Wash., March 25.—Snowballs thrown by a brigade of school children during the noon hour saved a schoolhouse near Satus from destruction by fire recently. The flames were held in check until a ladder and water buckets could be procured.

## The World And All

BY CHARLES B. DRISCOLL

### THOSE LINDBERGH FILMS

Many of the millions of friends of Charles Lindbergh were afraid his popularity would be somewhat lessened by the action of the Mexican soldiers in attempting to destroy the movie and X film of the crash of the plane "City of Wichita."

I do not think that the incident will be remembered against Lindbergh. True, it was a very foolish and unwarranted procedure. It was also high-handed. It was foolish because the pictures could not possibly have reflected discredit upon Lindbergh, and it was high-handed because the public had a right to see those pictures, no matter what they reflected upon anybody.

As it happened plenty of the pictures were saved. When the Prince of Wales falls off his horse he looks foolish. But the pictures, movie and still, are published all over the world and no effort is made by the British crown to prevent their publication. That's in a monarchy, and Wales is heir to the throne. A picture of Lindbergh's crash wouldn't make the hero look foolish at all, and Lindbergh, while the world's most heroic figure, is not heir to any throne, and besides both Mexico and the United States are republics.

With such information as there is at hand to judge by, I am not inclined to place the blame for the destruction of the pictures upon Lindbergh at all. Certainly, nothing of the kind could have happened in the United States. Mexico is a Republic, yes, but not a democracy in the sense in which we Americans use the word. The army has more power in Mexico than the combined city police forces of all the American cities have here. And not even an American city police force would have dared to destroy films of an important news event in the United States.

So primarily, I blame the Mexican army and the Mexican people for submitting to such army rule as is exemplified by this little incident touching the pictures of the Lindbergh crash.

True, the army must have had orders, and the orders must have come from somewhere. The story in this country is that the army was inspired by a request emanating from either Lindbergh or the American embassy. This is a conclusion that may not be warranted by the facts. The army may have done the damage upon its own responsibility.

And, retreating to the last ditch, I say that even if Lindbergh urged the army men to destroy the films, which I hope and believe he did not, we must make allowances for the young man's perturbation and confusion after such an accident. In emergencies, the might of us acts as wisely as we might. No, I can't concede that our hero will or should suffer any loss of popularity of this incident.

## Predicts Crisis

History's gravest financial crisis is predicted by Sir George Paish, internationally known economist. He declares governments are bringing it about by their trade restriction policies which prevent debtors from paying their obligations. The crisis will come this spring, according to Paish.

## National Farm Outlook

By ARTHUR H. JENKINS

Editor of Farm Journal

Published by special arrangement of Central Press and The Gazette With the Farm Journal

"As helpless as congress trying to get rid of Muscle Shoals" would be a good addition to the list of useful similes.

Congress has adjourned again, with that ancient problem as far from solution as ever. The white elephant of the Tennessee river continues to sit heavily and tearfully on the steps of the capitol. What is to become of the poor old \$75,000,000 derelict?

The nearest the Muscle Shoals question has come to getting itself settled was a year ago, when a resolution for having a government corporation run the plants was forced through congress.

But this was the measure which President Coolidge allowed to die by a "pocket veto"—and over which a legal battle is even now being fought in the supreme court.

I am no constitutional lawyer, but I feel sure the court will uphold the validity of that veto. And if it does, Muscle Shoals, is back precisely where it started, poor thing.

\*\*\* The whole Muscle Shoals problem is an extraordinary tangle of conflicting interests.

Opposed to any production of fertilizers by the nitrogen plants

is the whole fertilizer industry; they very reasonably object to having the government or a private company subsidized by the government, go into direct competition with them.

The power companies in Alabama object to similar competition from the power plants at Wilson dam, and a determined minority, led by Senator Norris of Nebraska, would have the government do almost anything rather than let the public utilities get the property.

The attitude of farmers has been that cheap nitrogen for fertilizer purposes would be a good thing for farming. But there is no such universal farm outcry for Muscle Shoals fertilizers as the propagandists would have you believe.

The American Farm Bureau federation, alone among the "Big Three" of farm organizations, has concerned itself actively with the question. Its leaders fought bitterly for the Henry Ford offer of some years ago.

The important chemical plant at Muscle Shoals, as a matter of fact, was built to produce cyanamid. But the process has been greatly improved in ten years, and considerable rebuilding would be necessary to put it into production.

The trouble with cyanamid as a fertilizer is that it is unsuitable for use by itself.

With all these different elements already the problem, a totally new one is now entering.

This is the production of nitrogen from the air by the Haber-Bosch process, at an immense new plant of the Atmospheric Nitrogen corporation at Hopewell, Va. Units of this plant are now operating, and it seems likely that a very large volume of nitrogen will be produced here in the next two years, though the company will make no statements as to its plans.

The process used is substantially the one developed in Germany during the war, and which is now producing great quantities of fertilizer at Oppau and Merseburg.

The manufacturers of cyanamid very naturally declare that they can compete successfully with any other nitrogen-fixing process whatsoever.

Senator Norris sticks to his guns, the power companies to theirs and the fertilizer people to theirs. The average farmer finds himself unable to bring any clear sense out of the conflicting claims and arguments, and is inclined to shrug his shoulders and pass on.

And there you are. That is the Muscle Shoals problem at the present moment unsolved and apparently insoluble.

### 45 Farms For Sale

40 ACRE FARM for sale, nice house, possession yet this spring. See W. O. Custer.

### 46 Business Opportunities

CHATEL LOANS. Notes Bought. Second Mortgages. John Harbison, Allen Building.

### 54 Used Cars For Sale

FOR SALE—Fordson tractor and Oliver plows. Priced right. H. K. Stormont, Cedarville, O. Phone 3 on 213.

### CHEVROLET 1924 touring car, \$25. John Harbison, Allen Bldg. Xenia.

### MOTORIST CUT AS CAR LEAVES ROAD

Nineteen stitches were required to close lacerations about the face and head of James Frame, Columbus Pike, near Cedarville, sustained when he is reported to have lost control of his auto and the car ran off the Cedarville-Clifton Pike and into a ditch Sunday afternoon.

Frame visited Dr. M. I. Marsh, Cedarville physician, who sewed up the wounds. His injuries, however are said to be not serious.

Frame's car before it went into the ditch, is said to have collided with another machine, which was not damaged to any great extent and was driven on after the accident.

Sheriff Ohmer Tate investigated the accident.

CHILDREN SAVE SCHOOL. GOLDEN DALE, Wash., March 25.—Snowballs thrown by a brigade of school children during the noon hour saved a schoolhouse near Satus from destruction by fire recently. The flames were held in check until a ladder and water buckets could be procured.

## Passed Up!

By ROE FULKERSON

© 1929 by Central Press Association, Inc.

Betty Brown, a dancer, goes riding with Andy Adair, the petted son of a rich family. His car is wrecked and neither Andy or any of the other men she has met while dancing come to the hospital to see her. George Harris, an old school friend, sees her through her hospital experience, however, and a subsequent operation on the dislocated knee. Not loving him, she decides to marry him because he has been so good to her. He has not proposed, but she does not doubt his intentions. She works in his cafe and attends business school at night. After graduating, she searches for a secretarial position.

### NOW GO ON WITH THE STORY

#### CHAPTER XLVI

Not discouraged, Betty searched the newspapers eagerly the next day for a position. She found an advertisement for a secretary which gave an office address and instructed applicants to apply at nine.

Betty was on hand early, only to find the hall outside of the door crowded with the same assortment of girls she had seen the previous day. They were as thick as they could stand around the door, and for ten feet back in the hall.

# The Theater

Paradoxical though it may seem, "The Redeeming Sin," starring Dolores Costello, has nothing redeeming about it but is practically all "sin" against the discriminating tastes of movie-goers. The picture just won't do.

As a drama, "The Redeeming Sin," becomes downright burlesque and that's being kind, if the critics are to be believed. Dolores, cast as a girl of the Parisian underworld, is surrounded by murderers, thieves, villains and sinners. She

Lucky little animal! That's Dolores Costello making such a fuss over him and—would you believe it?—he's half asleep!

sins to beat the band but her heart remains pure, which is one of the Hollywood miracles.

After her lover, Conrad Nagel, has been properly knifed and cast into a sewer, Dolores decides to marry the villain of the piece but, on her wedding night, learns her lover still lives. She then leaps from the window and falls innumerable stories, but, through another Hollywood miracle, survives and all is well.

Miss Costello and Mr. Nagel are miscast, and apparently can do nothing with their peculiar roles. Dolores should go back to her ermine and Civil War romances.

Darryl Francis Zanuck, who wrote the story for the Warner picture, "Noah's Ark," tells an interesting story of how the story was reproduced for screen purposes. Zanuck wrote his story comparing the flood that cleansed the earth of sin with the deluge of blood during the World War.

For the Biblical sequences of the picture, Warners built a thirty-six acre city on the site of the old Vitagraph studio in East Hollywood. One hundred and thirty-nine technicians worked out construction of the city, experts in architecture, building and water control. The city was surrounded with 140 individual spillways from which 800,000 gallons could be

Because there is nothing definite regarding the character of the people destroyed by the deluge, the picture used a conglomerate architectural style. The biggest dramatic scene comes when the water pours down on a score of people, knocking them from their feet and carrying them in its wake. This turned out to be a real scene. There was a mistake in the signal for the release and the water came down ahead of time upon hundreds of extras employed in the film. Forty-four were taken to hospitals, but none was seriously hurt.

Kate Price and Jimmy Finlayson are the champ "ma and pa" team in the movies. They are parents of Dorothy Mackaill in her next.

LEGISLATURE CONSIDERS MOVE FOR MEMORIAL IN THIS COUNTY

Purchase of a site in Greene County by the state and erection of a memorial to William Maxwell, the first publisher in the Northwest Territory by Ohio newspapers, is proposed in a joint resolution introduced in the house of representatives by Rep. H. E. C. Rowe, of Holmes County.

The resolution carried with it an appropriation of \$1,000 to defray expenses of the committee which would be composed of three representatives each from the upper and lower branches of the general assembly.

REWARD IS OFFERED AS MISSING GIRLS FROM HOME SOUGHT

A reward of \$100 has been offered for information to the whereabouts of two runaway girls from the O. S. and S. O. Home, who have been missing since they disappeared from the grounds about 7:30 o'clock the night of March 5.

Efforts to trace them since they left the Home have been unsuccessful.

The missing girls are Alice Heim, 15, daughter of A. Heim, 2215 Revere Ave., Dayton, and Audrey Kayser, 17.

Mr. Heim offered the \$100 reward in his anxiety for information concerning his daughter. Heim came to this part of Ohio from Alliance and has lived in Dayton for the last seven years.

Upon learning of the disappearance of his daughter, Heim came to Xenia and enlisted the aid of local police. The search was later extended to Springfield and then to Richmond, Ind., but there all trace of the missing girls was lost and the father has since had information concerning them broadcast over six radio stations.

It is believed that Hollywood, Calif., was their ultimate destination when they ran away.

Police Chief M. E. Graham issued circulars describing the missing girls as follows:

Alice Heim, 15, dark brown hair, straight, shingled in back, bangs parted in middle. Gray blue eyes, pointed nose, round shoulders. About 125 pounds weight, five feet, one inch in height. Wore blue gingham apron, large check; tan stockings; black and brown Oxford shoes; dark blue trench coat; imitation white gold wedding ring.

Audrey Kayser, 17, light brown hair, boyish bob. Hazel eyes. Weight 109 pounds. Height, five feet, two and one-half inches. Three false teeth upper front, with gold filling. Small scar between eyes. Wore gingham middie suit, plain blue, and red sweater. White stockings, pink beads, with glass pendant. Imitation wedding ring. Scar six inches on abdomen from appendicitis operation.

AUTOISTS UNHURT AS CARS COLLIDE

Both drivers escaped injury when a roadster driven by Edgar Jenkins, 62 Labelle St., Dayton O., collided with a sedan of Walter Linkhart, 2829 E. First St., Dayton, at the top of a hill on the Dayton-Xenia Pike at Alpha, five miles from Xenia, at 9 p. m. Sunday.

Jenkins was driving toward Dayton and the sedan was being driven toward Xenia. The cars sideswiped and the sedan ran off the highway into a ditch. Neither machine upset.

Deputy Sheriff George Sugden investigated the accident.

From Youth to Age

There are three trying periods in a woman's life: when the girl matures to womanhood, when a woman gives birth to her first child, when a woman reaches middle age. At these times Lydia E. Pinkham's Vegetable Compound helps to restore normal health and vigor.

Relief

—from troublesome coughs! Relief from hacking torment! Smith Brothers Triple Action Cough Syrup gives it to you—quickly and surely.

Medical science says that Triple Action works so well because it: 1—soothes, 2—is mildly laxative, 3—clears air passages.

Safe for children! It has the famous cough drop flavor.

Maxwell brought the first printing press into the Northwest Territory from New York, and established in a log cabin the first newspaper, "The Centinel of the Northwest Territory," which paper has been in continual existence, now being known as The Cincinnati Commercial Tribune. The original publication was printed on half sheet royal quarto size paper.

Later Maxwell printed the first book in this territory, was the first postmaster of Cincinnati, and a member of the first house of representatives, which met in Chillicothe, March 1, 1803.

Maxwell was a native of New Jersey. It is believed that he lived for a short time in Kentucky before he came across to Cincinnati. In 1799 accompanied by his family, he left Cincinnati and came across, settling on what was later known as the Maxwell farm in Beaver Creek Twp., this county.

Elected a member of the first house of representatives at the first general assembly of Ohio, he favored the law establishing Greene County. By an act of the legislature he was appointed one of the first three associate judges of the county April 6, 1803. He resigned his office of associate judge December 7, 1803 and was chosen sheriff of Greene County, serving until 1807.

He took an active interest in organizing the state militia and held the rank of major in 1805. On his farm in Beaver Creek Twp., he devoted himself chiefly to cattle raising. His death occurred in 1809 and his grave for a long time was supposed to be located on the old Maxwell farm, about one and one-half miles southeast of Alpha. The burial spot is not definitely known, however, and a committee of newspaper publishers has been attempting to definitely locate the spot.

DEATH CLAIMS MRS. MARY M. PITSTICK MONDAY MORNING

Mrs. Mary M. Pitstick, 83, widow of Henry Pitstick, died at her home, 208 W. Third St., at 2:15 o'clock, Monday morning. She had been an invalid for the past four years following a stroke of paralysis. She became seriously ill about six weeks ago, from kidney complications which resulted in her death.

Mrs. Pitstick was born in Calen, Germany, March 25, 1846. She had lived in Xenia for the last fourteen years.

Her husband and four children, William, Ella, Mae and Leo preceded her in death.

She is survived by six children, Mrs. Anna Sondoroth, at home, Mrs. Elizabeth Balensiefer, Fowler, Ind., Frank and Henry of Yellow Springs, John and Joseph of Cedarville. There are also three sisters, ninety-seven grandchildren, fifty-seven great-grandchildren and one great-grandchild.

Funeral services will be held at St. Bridgid Church Wednesday morning at 8:30 o'clock with burial in St. Bridgid's Cemetery.

CARROLL - BINDER COMPANY IS RE-ORGANIZED; NEW PRESIDENT

Dissolution of the partnership of Charles A. Carroll and Henry L. Binder formed for operation of The Carroll-Binder Co., 108-114 E. Main St., six years ago, was announced Monday.

At a recent re-organization meeting of the company, Charles A. Carroll was elected president and treasurer while W. A. Neville was chosen vice-president and secretary.

Mr. Binder, who had been president of the firm, has disposed of practically all of his stock to Carroll and Neville, but has not entirely severed his connection with the business, remaining as one of the five directors.

Prior to the organization meeting, Binder had been president, Carroll, treasurer, and Neville, secretary of the company.

The company is a wholesale and retail dealer in gasoline, oils, tires, batteries and auto accessories. It also operates a filling station on N. Detroit St., a bulk plant on Hill St., and a new storage plant now under construction at Bellbrook Ave., and Charles St., being built to provide increased capacity and to enable the company to buy lubricating oils in larger quantities and sell at cheaper prices in order to compete with chain organizations.

The business was founded by Carroll and Binder on a partnership basis in 1923. The firm name will remain unchanged.

BEACH COLOR LINE WORRIES HONOLULU SHERIFF'S OFFICE

HONOLULU, T. H., March 25.—Just how far this "color line" should go when it comes to bathing is the question which the Honolulu sheriff's office is trying to decide in an equitable fashion.

The color line refers to the boundary of the brown sun-tanned skin acquired by long exposure on the Waikiki Beach and the pale

Old Folks Say Doctor Caldwell was Right

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practice, known to druggists and the public since 1892, as Dr. Caldwell's Syrup Pepsin.

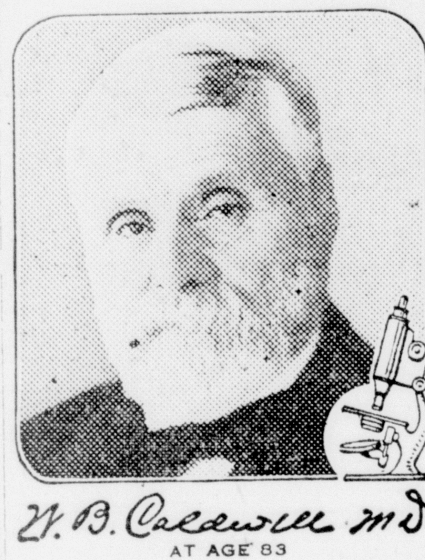

Then, the treatment of constipation, biliousness, headaches, sour stomach, indigestion, nervousness, and other indispositions that result from simple laxatives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, which is a combination of senna and other mild laxative herbs, with pepsin.

The simpler the remedy for constipation, the safer for the child and for you, and the better for the general health of all. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs?

A bottle of Dr. Caldwell's Syrup Pepsin will last a family several months, and all can use it. It is good for the baby because pleasant to the taste, gentle in action, and free from narcotics. In proper doses, given in the directions, it is equally effective at all ages. Elderly people will find it especially ideal. All drug stores have the generous bottles.

Do give it a trial, to prove how much Dr. Caldwell's Syrup Pepsin can mean to you and yours.

white skin that is protected by the bathing suit, if any. Tan skins on this mid-Pacific isle are the vogue, and the idea of the more-tan-the-better seems to be spreading, according to the sheriff's office.

Just how much of one's skin can be exposed for the sun-bath in public without being guilty of indecent exposure is the problem.

The official stamp of approval has been placed on swimming trunks for men and women's bathing suits with backs cut down to the waist are o.k., too, in the official opinion, when confined to the beach.

So is the custom of some of the beach flappers, who seek to eliminate the two bleached strips over their shoulders which show up so badly in formal gowns in the evening, when they unloose the shoulder straps.

But the fact remains that some men wear tight too brief, and

some of the ladies are poor judges of where to call a halt, and the sheriff's office has received complaints in sufficient number to sound a warning.

In the first place, it is announced the Desha law is going to be strictly enforced.

This law makes it a misdemeanor to appear in the streets in bathing suits, trunks, or otherwise and sets forth that bathers must be equipped with "an outer garment reaching at least to the knees." Violation is punishable by a fine of not more than \$50.

**Itching Quickly Relieved**

"Almost instantly the itching stopped." That's what most people say after they have used Resinol Soap and Ointment for any kind of itching rash. The soap cleanses and refreshes the skin, preparing it to receive the ointment which soothes and heals. Men like the tonic odor of Resinol Soap for the bath and the Ointment is invaluable for cuts, chafing, etc. At all druggists.

## DEATH CLAIMS MRS. MARY M. PITSTICK MONDAY MORNING

Mrs. Mary M. Pitstick, 83, widow of Henry Pitstick, died at her home, 208 W. Third St., at 2:15 o'clock Monday morning. She had been an invalid for the past four years following a stroke of paralysis. She became seriously ill about six weeks ago, from kidney complications which resulted in her death.

Mrs. Pitstick was born in Calen, Germany, March 25, 1846. She had lived in Xenia for the last fourteen years.

Her husband and four children, William, Ella, Mae and Leo preceded her in death.

She is survived by six children, Mrs. Anna Soudoroth, at home, Mrs. Elizabeth Balenstetter, Fawcett, Ind., Frank and Henry of Yellow Springs, John and Joseph of Cedarville. There are also three sisters, ninety-seven grandchildren, fifty-seven great-grandchildren and one great-grandchild.

Funeral services will be held at St. Brigid Church Wednesday morning at 8:30 o'clock with burial in St. Brigid's Cemetery.

## TRAIN HITS AUTO— THEN FIRE HITS IT

After being struck by the Baltimore and Ohio electric train at the W. Second St. crossing, a Ford coupe driven by Daniel Hilderbrand, 746 W. Second St., and valued at \$150, caught fire and was practically destroyed before firemen could extinguish the flames at 2:22 p. m. Saturday. The loss was placed at about \$100.

The fire was indirectly the result of the accident. Hilderbrand was not hurt in the accident and finding that the car was only slightly damaged, started to drive it away. He overlooked the fact, however, that the collision caused a leak in the gas tank and back fire from the motor set fire to the leaking gasoline before Hilderbrand had driven more than 150 feet away from the crossing.

Firemen were summoned but the car was practically destroyed by flames before the blaze could be put out.

Hilderbrand was driving east and the electric train was traveling at a slow rate of speed toward the station when the crash occurred.

## CARROLL - BINDER COMPANY IS RE-ORGANIZED; NEW PRESIDENT

Dissolution of the partnership of Charles A. Carroll and Henry L. Binder, formed for operation of The Carroll-Binder Co., 108-114 E. Main St., six years ago, was announced Monday.

At a recent re-organization meeting of the company, Charles A. Carroll was elected president and treasurer while W. A. Neville was chosen vice-president and secretary.

Mr. Binder, who had been president of the firm, has disposed of practically all of his stock to Carroll and Neville, but has not entirely severed his connection with the business, remaining as one of the five directors.

Prior to the organization meeting, Binder had been president, Carroll, treasurer, and Neville, secretary of the company.

The company is a wholesale and retail dealer in gasoline, oils, tires, batteries and auto accessories. It also operates a filling station on N. Detroit St., a bulk plant on Hill St. and a new storage plant is now under construction at Bellbrook Ave., and Charles St., being

built to provide increased capacity and to enable the company to buy lubricating oils in larger quantities and sell at cheaper prices in order to compete with chain organizations.

The business was founded by Carroll and Binder on a partnership basis in 1923. The firm name will remain unchanged.

REACH COLOR LINE WORRIES HONOLULU SHERIFF'S OFFICE

HONOLULU, T. H., March 25.—Just how far this "color line" should go when it comes to bathing is the question which the Honolulu sheriff's office is trying to decide in an equitable fashion.

The color line refers to the boundary of the brown sun-tanned skin acquired by long exposure on the Waikiki Beach and the pale

white skin that is protected by the bathing suit, if any. Tan skins on this mid-Pacific isle are the vogue, and the idea of the more-tan-the-better seems to be spreading, according to the sheriff's office.

Just how much of one's skin can be exposed for the sun-bath in public without being guilty of indecent exposure is the problem.

The official stamp of approval has been placed on swimming trunks for men and women's bathing suits with backs cut down to the waist are okay, too, in the official opinion, when confined to the beach.

So is the custom of some of the beach flappers, who seek to eliminate the two bleached strips over their shoulders which show up so badly in formal gowns in the evening, when they unloose the shoulder straps.

But the fact remains that some men wear tight too brief, and

some of the ladies are poor judges of where to call a halt, and the sheriff's office has received complaints in sufficient number to sound a warning.

In the first place, it is announced the Desha law is going to be strictly enforced.

This law makes it a misdemeanor to appear in the streets in bathing suits, trunks, or otherwise and sets forth that bathers must be equipped with "an outer garment reaching at least to the knees."

Violation is punishable by a fine of not more than \$50.

## Itching Quickly Relieved

"Almost instantly the itching stopped." That's what most people say after they have used Resinol Soap and Ointment for any kind of itching rash. The soap cleanses and refreshes the skin, preparing it to receive the ointment which soothes and heals. Men like the tonic odor of Resinol Soap for the bath and the Ointment is invaluable for cuts, chafing, etc. At all druggists.
